Cost Accountants To Meet December 20

James W. Clark, CPA, partner, Price, Waterhouse & Co., will be the speaker at the December 20 meeting of the Detroit Chapter of the National Association of Cost Accountants to be held in the Park Shelton Hotel Ballroom at 6:30 p.m. "Direct Costing" will be the subject of Clark's talk.

STOCK UP

Be ready for the approaching holidays by preparing an emergency shelf. Keep a good variety of foods on hand for unexpected company. Besides canned meats, vegetables, potatoes and fruits, you might keep such snack food as pickles, olives, sardines, mushrooms, spreads, candy and nuts. Of course, crackers and cheese are good keepers, too.

Save your thumbs when it comes to cracking those large, plentiful Brazil nuts for holiday cake and cookie baking. The best way to remove the shells, say M.S.U. food specialists, is to cover the uncracked nuts with cold water, bring it to a boil and boil three minutes.

To keep apples from turning dark, sprinkle the peeled fruit with citrus or pineapple juice. For a large quantity of apples, place slices as they are peeled in cold salted water. (1 teaspoon salt per quart of water.)

The exciting Ford Fairlane 500 Club Victoria (above)—over 17 feet long—is one of two new, bigger Ford sizes this year.

If you think it looks new... wait till you drive it!

... For there's where Ford's newness really pays off
... in melting mountains...in smoothing the bumps
... in straightening the curves

You can see that Ford's longer, lower Sculptured Look makes other cars look downright old-fashioned. But the part you can't see—the new "Inner Ford"—is what shows its stuff when you drive a Ford. It's completely revolutionary from the wheels up! And it feels it.

Ford's remarkable new, wider frame lets you sit sweet and low. It lets Ford hug the roads because of its lower center of gravity. And Ford's new front suspension, rear springs and new easy handling are part of the scheme to make you think every road is cloud-smooth.

The magic touch of the new Ford power plants makes mountains disappear. What looks like uphill feels like downhill. You get this surging power in a wide choice of new Silver Anniversary V-8 engines. Or you can choose Ford's new, more economical Mileage Maker Six, the most powerful Six ever offered in the low-price field.

There's magic in Ford's price tag, too! You won't believe this big new Ford is still priced Ford-low. But it is. Come in and test the magic of the new kind of Ford. It's a real "Wizard of Ah-h-h-h!"
