

## KENDALLWOOD NEWS

Mrs. George Bird

GR. 4-3469

Ray Henstock, director of the Detroit Garden Center since May 1954, will be guest speaker at a meeting of the Kendallwood News-Comers Club Tuesday, February 26.

The meeting will be held at the

home of Mrs. Donald Pife, 28048 Thorny Brae Road and will begin at 8 p.m. All women residents of Kendallwood I and II are cordially invited to attend. Reservations must be in by Saturday, February 23. Call Mrs. Pife, GR 4-2883, or Mrs. Morgan, QJ 4-5396. If you plan to attend.

Prior to coming to the Garden Center, Mr. Henstock was superintendent of Parks and Boulevards in the City of Dearborn for 25 years. He was in charge of the Horticultural Gardens for six years at Eastern Michigan State College, where he received a Bachelor of Science degree.

A native of West Virginia, Mr. Henstock came to Michigan in 1921.

"My one purpose in life is to help others enjoy their gardens," stated Henstock.

Northville Park echoed with the shouts of 15 happy children and the panting of ten hill climbing parents Saturday afternoon, February 2, when Brownie Troop 830 held a family toboggan and sled party. Everyone reportedly had a wonderful time and left for home tired but happy.

At a party on February 7, Pamela Eckley celebrated her fifth birthday at her home on Quail Hollow Road. Guests at the party were Susan Rogers, Teresa and Linda Eilers and Sandra Flanagan all of Detroit and Sarah Gahagan and Pamela's sister Marcia from Kendallwood.

Mr. and Mrs. Gerald Ellsworth of Green Willow Road have had as their house guest this past week, Mrs. George Rogers, 1 Adams of Irvington on the Hudson. Mrs. Adams is Mrs. Ellsworth's mother. Here she enjoyed her visit with the newest grandson, Andy Ellsworth, born in December.

### Propose Stickers For Park Users

Conservation Department officials are working out the details of a proposed "parks sticker" program, which would help to finance Michigan's state parks.

The state Conservation Commission approved the general program in January and agreed to ask the state for authority to establish a \$2 per automobile annual use fee for state park visitors. A smaller daily fee would be charged for park visitors who do not wish to purchase the annual sticker.

Under the proposed program, use fees would be charged per person, and the annual use sticker would be valid at all state parks throughout the year.

### Prepare Skating Rink in Township

Sunday, February 10, through the hard work and combined efforts of Richard C. Stewart and Arthur Leland, Jr., a skating rink was opened for the young people of the area.

The skating rink is located on Shiawassee and Oxford, just south of the Boys Republic. Frank Schumacher, of the Union Lumber Company, donated \$65.00 towards the expense of the rink.

Mr. Stewart and Mr. Leland both expressed concern over the lack of recreation facilities available to Farmington Township residents. This is the only skating rink in the area and will hardly accommodate all the enthusiastic budding skaters, they pointed out.

Mr. Stewart is running for Parks Commissioner in the coming election and has pledged his full support and cooperation in making other links and beautiful recreation available to Farmington Township residents.

For frying: select a plump young chicken approximately 14 to 20 weeks old and weighing between 2 1/2 and 3 1/2 pounds dressed. Other young birds can be fried in the same way as chicken.

### Local Manager For Bell Named

Michigan Bell Telephone Company announced this week the creation of a new managerial post to administer business operations in the Farmington area.

Named Farmington manager is John Kamago, former assistant manager at Plymouth. Kamago stated that the move was made to improve service and to keep pace with rapid business and residence growth in the Farmington area.

The new manager began his Michigan Bell career in 1942 in the company's plant department.

Following three years in the U. S. Navy in World War II where he served as lieutenant, Kamago transferred to Michigan Bell's sales department at Detroit. Here he filled a variety of training assignments in the company's commercial department.

Kamago is married and the father of two children. In 1929, the German dirigible, Graf Zeppelin, circled the world 21,700 miles, in the time of 20 days, four hours.

### Local OES To Give Reception

Russell C. Munro, Grand Sentinel of the Grand Chapter of Michigan O.E.S. will be honored at a reception sponsored by Farmington Chapter No. 239 O.E.S.

The reception will be held at the American Legion Hall on Grand River Avenue, Saturday, February 16.

The reception will be at 5:00 p.m. and the dinner served sharply at 6:00 p.m. The Grand Officers will exemplify the degrees at 7:30 p.m.

For reservations call GR 4-5533 or GR 4-4448.

### Fish Shanties Must Bear Identification

Ice fishermen are reminded that all shanties and other shelters placed on ice-covered lakes must be identified, on the outside with the owner's name and address in letters of insoluble material not less than two inches high.

Fishermen also are required to remove their shelters from the lake before ice becomes unsafe.

A New Zealand veterinary says he may be able to test a racehorse's potential by checking its heart. Touts will probably carry a stethoscope wrapped in their scratch sheets from now on.

### Michigan Mirror

(Continued from Page 2B)

possible friction. Finally the globe is taken to the firm's Livonia plant where a gold plating is applied to deflect the sun's heat rays and keep the recording instruments cool.

Five spheres are already completed. Plans are now scheduled for a launching sometime after January, 1958, from a Florida site.

And what does the firm think about the role they are playing in the history-making event? They couldn't be happier. As they point out, before the satellite contract came to Michigan, they were practically unknown in Detroit. The contract changed that and brought them a host of new friends.

IF MICHIGAN were suddenly cut off from the rest of the country for food supplies how well would we do?

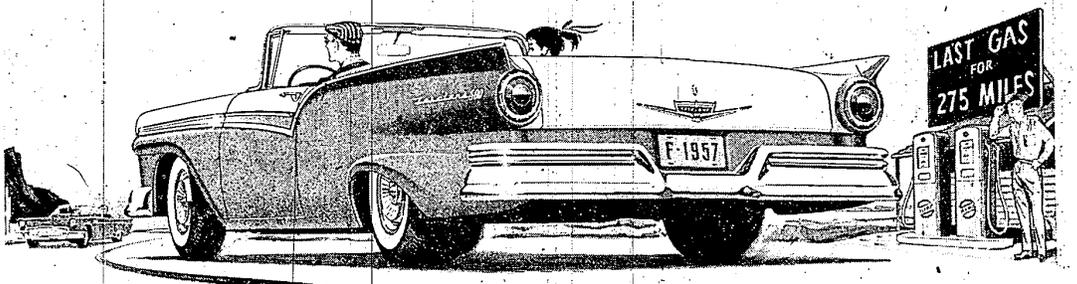

Michigan's diversified agricultural economy provides a pleasant "burp" of satisfaction in answer to this question once each year at an annual "All-Michigan Dinner."

This unique banquet is sponsored by the Michigan Department of Agriculture and Michigan Press Association every January for newspapermen from all parts of the state. Purpose: to show that Michigan food products lead the way in quality and "taste-goodness," that Michigan's farms produce many different kinds of crops. Only Michigan food is served. And from the variety presented, no one should expect more.

This year's menu included such tasty items as half of a "golden fryer," spiced tomato juice, fresh rhubarb pie and cheese, buttered peas and mushrooms, fresh lettuce and cottage cheese, whipped potatoes, celery, carrot sticks and radishes.

Every bit was grown right in Michigan. Every year the menu is changed to include some of the many other products available.

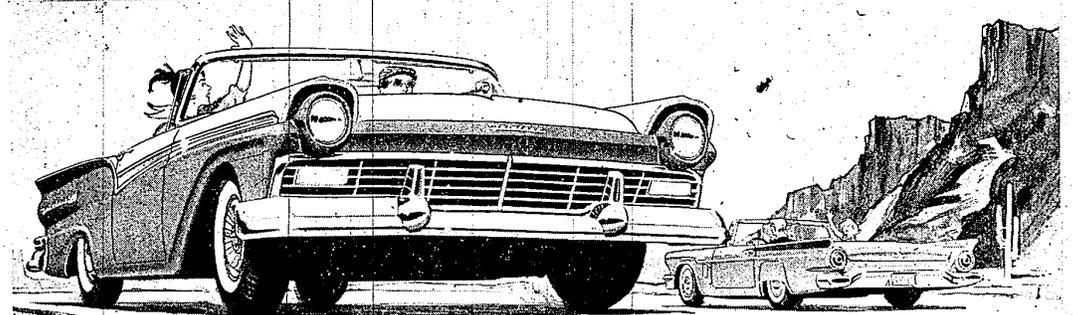

Not only is a delicious dinner provided, but additional Michigan foods are introduced to the newspapermen. Michigan beans, sausage, apples (fresh and spiced), pickles, salt, cherries, onions and other products all demonstrate Michigan's agricultural diversity.

## Eats like a hummingbird!

Like all the new '57 Fords, that sleek Sunliner up there lives on a mighty lean diet of gasoline. Big reason? Look underneath the new front-binged hood of this 17-foot long dreamboat. There you'll find a magnificent V-8 engine . . . an all-new, easier "breathing" power plant that measures fuel and air more effi-

ciently than ever before to give you fuller combustion, greater economy. There you'll find a completely new brand of Ford TNT that's the proud result of Ford's many years of V-8 engine leadership. Yes, "Six" or "Eight" . . . the going's great in the new kind of Ford for '57!

## Goes like a Thunderbird!

For a car that "eats" like a bird . . . just watch this new kind of Ford devour the miles! That's its new Thunderbird V-8 power\* for you. It's the same kind of mile-melting power that sparks the mighty Thunderbird itself . . . the same kind of staying power that hurried a '57 Ford over 50,000 salt-encrusted

miles at Bonneville in less than 20 days . . . at an average speed of more than 108 miles per hour! But Action Test the new kind of Ford. Feel the new solid, silent ride that stems from the all-new Inner Ford. Discover all the other reasons why Ford makes "luxury" a low-priced word!

\*Ford offers V-8 engines in a wide range of horsepower—including a Thunderbird 312 Supercharged V-8 that delivers 300 hp and a 270-hp Thunderbird 312 Super V-8

Sample the savingful sizzle in the new kind of **Ford**
