Gas Water Heaters Heat Water Faster

National sales records show an overwhelming preference for automatic gas water-heaters over any other run by an all-automatic fuel. Gas does a better job-actually replaces water 3 times faster.

An ample supply of hot water, once a lux-iny that only the wealthy could afford, is a necessity of modera living.

More than 75 manufacturers make gas beaters. You can find every type of construc-

tion, every sort of tank lining, every product advantage you can think of—in gas.

More than 17 and a half million families use gas water heaters. They can testify that heaters cost less to buy, use and install.

Only GAS does so much, so well . . . the modern fuel for automatic cooking . . . refrigeration ... water-heating ... house-heating ... air conditioning ... clothes-drying ... incineration.
