Women's Dress

This is a call to arms to all ladies in this area.

What has happened to the mother or daughter who's attire for shopping was a nice cotton or as some would say, a homemakers' cotton?

Last Saturday while shopping Food Fair, I was asked a question of what I said. Ladies, must you go shopping in short SHORTS? May we suggest to mothers-to-be, please attire yourself befitting your vocation in life.

Doctors advise the wearing of comfortable clothing when shopping for a doctor. May I ask, who is the doctor, father, husband or brother who would advocate such unbecoming attire in public for the ladies of their homes?

Some cities do have laws prohibiting women shopping in such attire. Must Farmington come to this?

Ladies let's wake up and dress as ladies should.

A mother and wife.

In order to be able to compound your prescriptions exactly as your physician specifies we pharmacists must carry a great many different medicines. In the past, a physician is no longer restricted to just a few drugs. From the many thousands in our prescription department he prescribes the exact one he believes will help you most.

Good order is important in a prescription pharmacy. All medicines are classified so that we can locate them quickly and carefully stored to preserve their potency and freshness.
