

Torch Drive Begins Oct. 20; Farmington to Raise \$13,000

The 1964 Torch Drive residential quota for Farmington and Farmington Township has been set at \$13,892.74. Mrs. Donald Schlack, 29234 List, is division chairman. Mrs. Bayard D. Tupper, 33728 State, is associate chairman. The money is to be raised through house-to-house canvasses between Oct. 20 and Oct. 30.

Contributions will go toward the overall Torch Drive goal of \$20,800,000 to be raised for the 1965 budgets of 204 local, state, and national health and community services. Emphasis in the residential canvass will be placed on completing solicitation in the first 10 days of the drive, which reaches a climax at the Victory Dinner to be held in the Stadler Hilton Hotel on the evening of Nov. 12.

The 10th annual "give one for all" fund-raising drive will see 125,000 volunteers calling on neighbors and fellow-workers for contributions for 204 worthwhile causes which otherwise would campaign independently. Of the total, \$1,441,331 is to be raised from residential solicitation.

Money raised in the Torch Drive goes toward community organizations, family and children's services, health services, youth services, and such organizations as the American Red Cross and the Salvation Army. The Torch Drive conducts a thorough house-to-house canvass in Macomb and Wayne Counties and most of Oakland and Macomb. Everyone with an opportunity to contribute. All are helped in one way or another by Torch Drive services, and the United Foundation offers the opportunity to everyone to participate, either as a volunteer worker and as a contributor.

Since the first Torch Drive was held in 1949, more than \$24,000,000 has been contributed through its volunteers to help maintain a high standard of health and community services. More than 95 cents of each dollar contributed goes to the agencies for providing services. Less than five cents pays for campaign costs, year-round administration, accounting, and education. This compares most favorably with similar fund-raising efforts in other United States.

"Chemical Warfare - A Step Toward Peace?"

Dr. Martin E. Gluckstein addressed the Farmington Kiwanis Club on Tuesday evening, Sept. 29, on the subject "Chemical Warfare, A Step Toward Peace?" In his talk, he briefly reviewed the history of chemical warfare from 600 B.C. and discussed some of the newer techniques. Dr. Gluckstein, who describes himself "as, like most Americans, a short-run militarist and long-run pacifist" expressed concern that the public image of the nature and variety of chemical warfare has been warped by misinformation and that the popularly held beliefs concerning chemical warfare are not consistent with the facts. "Business is required if we are to secure lasting peace," he said, "secured by international agreement and policed by force of arms if necessary." Dr. Gluckstein went on to state, "This unfortunate lack of understanding is perhaps preventing the role of chemical weapons as a part of the arsenal of an international control force from receiving the attention it warrants. Chemical weapons and a police force trained in the techniques of their use may be one of the most effective means to the end of the attempt by any nation to breach agreements and to utilize war as a means of expression of national policy."

RAYMOND CHAIKEN, Treasurer
FRED BAILEY, Secretary

The Board of Education has been continuing its study of various plans for increased facilities to provide for the additional pupils who will be attending the various Clarenceville schools. It is the anticipation of the Board of Education that approximately 650 additional pupils will be enrolling in the next two years. Certain construction is now underway at the Edgewood Elementary School and the Senior High School to meet the urgent needs which will develop as a result of this anticipated increase. During the past several years Clarenceville has had approximately 385 youngsters enrolled in kindergarten and approximately 115 pupils graduated from high school in June of 1964. Projections for the future indicate that the number enrolling in kindergarten will be over 425 annually. The financial position of the school district is sound. Of recent date the Municipal Finance Commission authorized the Board of Education transferring monies from the 1954 Debt Fund, which obligation has been paid, to the 1964 Debt Fund. The 1964 Debt Fund was authorized by the electorate on January 7, 1964 when additional bonding in the amount of \$750,000.00 was approved. On June 8, 1964 the electorate authorized two additional mills for operation. The Board of Education and the staff of Clarenceville School District must continue to study and consider the findings of research and evaluate existing programs in order to continue to provide the greatest possible educational opportunities for children. Our changing society makes it imperative that we endeavor to develop a type of program that the electorate of the district can and will support for children. Findings of studies and re-evaluation of the high school curriculum resulted in increased subject offerings in many areas in 1963-64 such as science, mathematics, social studies, industrial arts, and commercial. The increased requirements for graduation and lengthened class periods made it necessary that pupils spend more time in classroom activities. One of the major changes in the elementary field for the 1964-65 year will be in the field of mathematics, especially in grades kindergarten through four. The cooperative training program, which started in 1963-64, provided opportunities for in-school-on-the-job training for a number of pupils. Provisions have been made for expanding this program during the 1964-65 year. The expanded classroom offerings, changes, and training programs will allow for a broadening of educational experiences for high school pupils and provide a better program of instruction for the future. The Board of Education has approved a program providing for expansion of the curriculum at various levels. Additional personnel have made it possible to expand the use of libraries and special rooms and to provide for more pupil experiences in music and art, especially in the elementary grades. It is hoped that these expanded programs will provide additional challenges for all youngsters. The Board of Education will of necessity continue its studies of future curriculum and building needs of the school district in order to continue providing the best possible educational program for children and to provide for the potential increases in enrollment.
