

AF Reservists Get Chance To Re-Enlist

Approximately 2,500 former Air Force rated officers are going to be given an opportunity to regain their commissions and return to flying status with units of the Air Reserve Forces.

Headquarters, U.S.A.F. has authorized CONAC and the National Guard Bureau to reappoint certain former rated reservists in an effort to relieve a critical need for pilots and navigators.

Reappointments are limited to company grade officers who were on flying status at the time their previous appointment was terminated.

To be eligible, an officer must qualify for flying status, agree to participate in a ready reserve aircraft position for at least four years and meet all criteria for initial appointment in the Air Force Reserve or Air National Guard, except that his age may exceed the normal maximum by the number of years of previous commissioned service.

A college degree is not required and former officers must not have held a permanent reserve grade higher than captain at the time of discharge.

Former captains will be awarded seven to nine years constructive service credits and first lieutenants will get three to six years.

Officers whose appointments were terminated for cause are not eligible for reappointment.

Any interested former officers call Major Robert L. Collins at Selfridge AFB, 463-1241, Ext. 5238 or MSgt. D. H. Jones at Ext. 6209, 7109.

Pick Barbeta Rice Residence Hall Head

Barbeta Rice, 31404 Conway Drive, Garden City, has been elected president of Rivier House of the W. D. West Residence Hall for Women at Northern Michigan University in Marquette.

Barbeta, a 1963 graduate of Bentley High, is a sophomore majoring in elementary education.

As president of Rivier House, Barbeta is a representative to the Executive Council of West Hall. She presently is corresponding secretary of the Council.

A PLAQUE WAS PRESENTED TO Bentley High School by the Alumni Association commemorating the faculty who have spent ten or more years at Bentley. The names that appear on the plaque are also honorary members of the Alumni Association and some are now teaching at Franklin High School. The plaque will be located in a prominent

place for all homecoming alumni to view. Here, Alumni Association President Arlene McKeon gives the plaque to Bentley principal Donald Friedrichs. Bentley High School varsity will play its annual Homecoming football game against Trenton on Friday, October 16, at 8 p.m. on the Bentley Athletic Field.

Suburban Credit Unions Mark 115th Anniversary

Ralph Novak, vice-president of the Michigan Credit Union League, and manager of the Detroit Newspaper Industrial Credit Union, will speak at the International Credit Union Day dinner, Saturday, Oct. 17 at 6 p.m. at Pandora Restaurant, 35870 Plymouth Road, Livonia.

Sponsored by the Filene Chapter of the Michigan Credit Union League, credit unions in the Chapter area of western Wayne County will join the 30,000 credit unions in 70 countries

throughout the world in observing the 115th anniversary of the credit union movement.

President Lyndon B. Johnson, in recognition of Credit Union Day, said that "by encouraging thrift and the prudent use of one's resources, credit unions have become an integral part of our thriving

American economy. In recent years, credit unions have filled a gap in the developing nations of the free world. Through the principles of brotherhood and self help, they are helping to provide needed capital to the citizens of these new nations—enabling them to build prosperous economies and democratic societies."

In NATO Maneuvers

Robert D. West, Jr., airman, U.S.N., son of Mr. and Mrs. Robert West, 33838 Hathaway, Livonia, participated in a North Atlantic Treaty Organization (NATO) naval training operation called "Exercise Team Work" in the North Atlantic while serving aboard the anti-submarine warfare aircraft carrier USS Wasp.

The theme of the 1964 celebration is "Your Friend in Need — Your Partner in Progress" and illustrates the role of the credit union plays in its members' financial life.

In Michigan, 1,200,000 members enjoy the benefits offered by their credit unions—low interest loans, low cost life insurance, loan insurance at now extra cost, safety for savings, in addition to friendly personal service and a voice in the running the credit union.

Set College Night

Clarenceville School District seniors and their parents may speak with college representatives at a special College Night program scheduled Oct. 22 at 7:30 p.m. at Garden City High School.

Largest Grant Paves Way For U-M Dental Building

ANN ARBOR—The award of \$5,034,265 to the University of Michigan by the U.S. Public Health Service for the construction of a new dental building is the largest federal grant ever received by U-M for construction.

Earlier this year the State of Michigan appropriated \$1,500,000 as an initial state appropriation for the start of building construction during 1964-65. Additional state appropriations will be made in succeeding years to complete the state share of the project within the authorization of \$7,932,000 of state funds.

Plans and specifications are now being drawn and the total cost of the project with both state and federal funds will be determined as these plans are formed.

Dr. William Mann, Dental School dean, said the federal grant would provide the additional funds necessary to assure financing of all the program requirements for teaching and research eligible for federal grant support.

The \$5,034,265 grant, Dr. Mann said, is part of an organized effort to improve and expand programs in dental education and dental research as a

national goal for improved resources in dental care.

The new building will permit expansion of Dental School enrollment from 350 to 600, and dental hygiene enrollment from 78 to 150. As has been true in the past, it is expected that private gifts and grants will also provide for special teaching and research facilities as needs indicate during the period of building construction and occupancy.

Fluoridation Program Starts At West Junior

The fluoridation program of the Plymouth Community school system started this week at the Junior High West.

The program offers a single application of a new type of fluoride for the children instead of the four treatments as in the past.

Fee for the treatment is \$2 and children must have the signed permission of parents. The program is open to all pupils from kindergarten through the eighth grade.

Dentists in charge indicated the program will switch from one school to another every two weeks.

search facilities as needs indicate during the period of building construction and occupancy.

The new dental building will include a three-story structure primarily housing dental clinics, a six-story research and office wing and a smaller wing connecting to the east side of the Kellogg Institute.

Construction is scheduled to start in late spring of 1965. The present dental building, constructed originally in 1908 with an addition in 1952, will be torn down as part of the project. The new clinic facility will be completed before the old building is removed.

Texas Trainee

Airman Michael T. McElroy, son of Mr. and Mrs. Warren E. McElroy of 31300 Olson, Livonia, Mich., has completed Air Force basic military training at Lackland AFB, Tex. Airman McElroy is being assigned to a Strategic Air Command (SAC) unit at Dow AFB, Maine, for training and duty as a food service specialist. SAC keeps the nation's intercontinental missiles and jet bombers on constant alert. The airman is a graduate of Franklin High School.

WSU Gets \$83,800 In Grants

Wayne State University has been awarded three grants totaling \$83,800 from the National Science Foundation for research in the fields of biology, chemistry and physics.

The largest was a two-year grant of \$36,400 awarded to the biology department for research project entitled "Occurrence, Nature and Role of Certain Blood Proteins." Directing the research is Dr. Werner C. Heim, 20476 Warrington Dr., associate professor of biology, whose team will study food proteins in blood cells under a series of conditions not present in healthy adults.

Dr. Chauncey R. Benedict, 16219 Badolone, Birmingham, assistant professor of chemistry, received a three-year grant of \$31,800 to study "Metabolic Habits of Photosynthetic Bacteria."

A third grant of \$15,000 for one year was awarded to Dr. Leonard O. Roellig, 24051 Oneida Park, associate professor of physics, to study the "Structure of Liquids Using Positron Annihilation."

To be successful scientific money, but never principle.

Promote Paul CHANDLER

As The STRONG VOICE FOR THE SUBURBS IN LANSING

★ PAUL CHANDLER put the suburbs on the map during his first term in Lansing 1962-64, joining fights for lower telephone rates, higher per-pupil school aid, more funds for community college, better real estate assessments, easier revenue bond refunding and much else which over a period of time will save thousands and thousands of dollars for suburban taxpayers.

★ PAUL CHANDLER stoutly supported Governor Romney during this period of unprecedented Michigan Recovery from a huge red ink deficit to a comfortable surplus — in less than TWO years!

★ PAUL CHANDLER is a Fighter for his Beliefs; he is Independent; he is Liberal; he is unwavering by special interests and HE IS HONEST.

★ PAUL CHANDLER publishes the outstanding Observer Newspapers in suburban Detroit. University of Michigan graduate in Political Science. 44 years old. Resides 15715 Southampton, Livonia.
