Homemakers Organize For Better Living

Do you want to improve your appearance?

Do you want to understand the teenagers in your family? Do you want to learn to buy wisely?

Do you want to make the most of your time and energy? All these topics and many more are studied in detail monthly in study groups sponsored by the Michigan State University Cooperative Extension Service. We emphasize better living through learning and study home management, consumer buying and human relations.

If you are interested in joining a Home Economics Study Group or have several friends who are interested in starting a new study group, please come to a joint meeting with Livonia, Dearborn Heights and Garden City women. Come and ask questions about this worthwhile program and become a better informed homemaker. England.
