

# Observer Readers Speak Up on Current Issues

**Yes on Parks**  
Editor: The undersigned members of the Executive Board of the Jackson PTA agree that the best interests of the City of Livonia will be served by passage of the Parks and Recreation Bonding

Proposal to be voted upon at the general election of November 3, 1964. We believe the passage of this proposal is necessary if we are to have the recreational land and programs and the open space that our city needs and which we all desire.

*[A message of importance for men and women who are concerned about their health]*

## If you're over 40, Kidney and Bladder ailments strike far more often

Now is the time to do something about it!

After 40, you're reaching the age when your body becomes susceptible to illnesses which are common to middle age. Among the most distressing are kidney and bladder disorders. If you've ever suffered them, you well know the pain and embarrassment involved. To help relieve kidney-bladder conditions, many doctors suggest drinking 6-8 glasses daily of spring-pure Mountain Valley Water. That's because its diuretic (kidney-flushing) effect steps

up kidney action, helps you when your body wastes faster. Mildly alkaline, it gently soothes bladder irritation, at the same time helps neutralize excess uric acids (thus reduces that "burning" sensation). What's more, Mountain Valley Water is "light," non-billing, non-laxative... and tastes wonderful! Regular daily use can make a positive contribution to continued good health. Costs only pennies a glass because its diuretic (kidney-flushing) effect steps

PHONE or WRITE for a supply today. Ask for free literature. Money-back guarantee.

Delivered direct to your door from the world-renowned spring near Hot Springs, Ark.

... SECURITY CHARGES INVITED

**HOMEMAKER SHOPS**  
LOCATED IN THE LIVONIA MALL OPPOSITE SEARS

public morals and existence of lawlessness in every city, tolerated? Are they signposts on the way to decay of the republic? Our people have an obligation to a course of moral drift because no example—or worse, bad example is provided them. We are not to be misled by the living Constitution which should be our guide and our anchor. Is the laxity of our moral sense, because if we give enough unto Caesar we may safely forget our debts to God and our responsibility to our own selves for our conduct.

Are we to tolerate men management by our federal betters, spoon-fed only as much of the approximate truth as they judge we can digest, or are we to be an informed people, served by a free press?

We still have a great country and it calls for a great leader. It takes courage to enunciate truths, and we have found in Barry Goldwater a man of courage and a rugged battler for what is right. I believe he will help get the United States back on the right path and I believe we must have a rebirth of personal responsibility.

Thank you, Del Lamb.

**She Votes YES**

Editor: As registered voters and as property owners, we have the opportunity to effect the future development and growth of the City of Livonia. If we are concerned and dedicated to the basic principles of our democratic system, we are concerned and dedicated to providing the best possible community life for ourselves and for the future residents of this City. The decision as to land purchase and development is ours to make and is as important to the future of this area as the great territorial conquests in the days of the pioneers.

The vote of the people now will determine the way of life for the people in this city for many generations to come. The passage of Proposition Two on the Nov. 3 ballot will enable you and I and future property owners to share in the cost of this bond issue over a period of 30 years, and it will bring badly needed green area and varied recreational facilities to the second largest city area (38 square miles) in the State of Michigan.

This proposition has the support of many people throughout the community, but it needs your VOTE and mine to insure its passage. Did you know that according to the City Charter, 60 per cent of the registered property owners voting must record a YES vote for Proposition Two, in order for it to become effective.

Your vote does count, doesn't it? Make it count in a meaningful way. One day, you will enjoy the benefits of your concern for your neighborhood and your community—at a nearby park area, swimming pool, tennis court or golf course in the City of Livonia.

Nicholas F. King

Editor: Unlike much of the mail you get at this time, we are recommending that you vote for some candidate, but we are recommending the book Design for Education to every candidate and every voter.

Peter Howard was for many years Britain's highest paid political writer. He knows the world's leaders and the trouble spots intimately. In the last year he had been in demand across this country as a speaker for all kinds of groups from the Commonwealth Club of San Francisco to Wheat Street Baptist Church in Atlanta, from the Massachusetts State Senate to the labor unions of Southern California.

He has the rare capacity of being able to fully appreciate all Americans have done for his country and the whole free world and at the same time helping us to see ourselves as others see us.

Having read Design for Education

**BUY RATHER THAN RENT A HOME OF YOUR OWN**

You can purchase recommended Veterans Administration property with no money down, 30 years to pay, only 5 1/4% interest too. You don't have to be a veteran to buy.

See any licensed broker for the complete listings.

ation with great profit, we urge you to read it—it is worth ten times the 75c it costs. It is available at newsstands and paperback outlets.

Sincerely,  
Dr. and Mrs. Gordon A. Eadie

**Democrats Only**

Editor: Before coming to the Scientific Laboratory of Ford Motor Company, I was employed by the General Atomic Division of General Dynamics Corporation. As a former research staff member of a company devoted to the development of nuclear energy, I have a healthy respect for the power of the atom.

A bomb five times as powerful as that exploded at Hiroshima is by no means 'conventional' and cannot be treated as such. The manner in which the Republican nominees for President and for the House of Representatives (19th Congressional District) treat the delicate details of defense is frightening.

The uneasiness felt by scientists about the presidential race is reflected by the organization of "Scientists and Engineers for Johnson," a bipartisan committee whose national officers include Professor G. B. Kistiakowsky (science advisor to President Kennedy), Dr. Benjamin Spock, Dr. Paul Dudley White, and eighteen Nobel Prize winners.

Those who have looked into the record and statements of the Republican nominee for congress realize that he is, if anything, closer to the extreme right wing than his presidential running mate. For the sake of preserving the international advances made through the Peace Corps, the Limited Nuclear Test Ban agreement, the Hot Line, and other programs of bipartisanship agreement, I am voting Nov. 3 for President Johnson and for Billie S. Farnum for Congress.

Yours very truly,  
Edward G. McElvaine, Ph.D.  
Farmington

**'Think This Over'**

An Open Letter To The Citizens of Northwest Wayne County As a citizen of this area, I

am looking at this election with an eye on our future policies. I know our past history.

In 1775 and 1776 these United States declared a new idea to the world—freedom and the dignity of the whole man.

In 1860 through 1865 our great nation was tested by the greatest tool of testing—civil war.

In 1964 we are faced with another challenge—to move forward or stand by and let the world crumble.

1. Are we to stand by with a sense of apathy with Russian rockets pointed at New York City, Chicago, Washington, and Detroit—only twenty miles away?

2. Are we to stand by while the Communists are camped only ninety miles from our shores—in Cuba?

3. Are we to stand by while
