

FOUR OF HER grandchildren from Nankin Twp. are spending the weekend with Mrs. John Duhklee and her family on Shady Side Ave.

## Real Estate Sales in Area Up Over 50 Pct.

Sales of residential real estate in Farmington and adjoining communities continue to break all records, according to Steve Nahina, Farmington Realtor and member of the United Northwestern Realty Association.

Nahina cites the latest multi-list sales figures. Just released by UNRA. The report, which covers Detroit's west side and the western portions of Wayne and Oakland counties, shows that during September Realtors' firms belonging to the United Northwestern Realty Association sold a record breaking 57,916,000 of residential property—up 51 per cent from September 1963.

"September was the 14th consecutive month that residential property sales in this territory have shown an increase over the corresponding month a year ago," Nahina said. "Total sales by all members of the United Northwestern Realty Association for the first nine months of 1964 amounted to \$73,599,705, as compared with \$51,699,016 for 1963—an increase of 41 per cent for the year to date."

**LADY BETTY FLUFF PRUNE JUICE DELIGHT**

Habits seem to fall into just two categories... good and bad. And it's the good ones we all try for. A habit starts out like a cough, tedious and easily broken, but eventually it's a strong steel cable. So it's natural to start our children and families out with only good habits, especially where their health is concerned.

Breakfast is one of our family's good habits, and by that, I mean that although we vary the style of eggs and the kind of cereal, we always have Lady Betty Prune Juice to start the meal. In fact, Lady Betty Prune Juice is one habit we have that was easy to start because the flavor is so rich and delicious that we all love it. Of course, keeping a supply of Lady Betty Prune Juice in the refrigerator to drink for breakfast (and sometimes one of us likes another glass before bedtime) inspired me to try a new recipe using it. Consider the fruit made in this recipe. It's so good, it's hard to believe how much we like the flavor, it seemed logical to use it in a new recipe. So, we call this one Lady Betty Prune Juice and either a salad or a dessert, depending on whether you plan to serve it on crisp lettuce with a art dressing or garnished with whole cooked prunes and whipped topping.

2 cups Lady Betty Prune Juice  
1 envelope plain unflavored gelatin  
1 Tbsp. lemon juice  
1 1/2 cup package cream cheese

Soften gelatin in 1/4 cup of Lady Betty Prune Juice. Heat 1 1/2 cups of the Lady Betty Prune Juice and dissolved gelatin mix in over very low heat. Add lemon juice and chill till partially set.

Whip cream cheese with remaining 1/2 cup of prune juice and gently fold into the mixture. Chill until set in mold or mixer.

If you'd like to add fruit to this, well-drained black cherries are especially good, and if you plan to use cooked prunes as a garnish, use and stuff them with cream cheese.

## REGULAR PEOPLE stay that way with

**Lady Betty PRUNE JUICE**

The wonderful health benefits of Lady Betty Prune Juice come from its essential minerals and quick energy natural sugars. Just what your family needs to keep them a bunch of regular healthy people.

## The Women of Kendallwood Farms

By JOAN HARRIS

The Women of Kendallwood Farms will have their monthly meeting Tuesday evening, October 27, at 8 p.m. in the cafeteria at O. E. Dunckel Junior High School. Following the business meeting, Program Chairman Mrs. Ralph Lennis will introduce the speaker of the evening, Dr. Margaret Sterne.

Dr. Sterne was born and went to school in Frankfurt am Main, Germany. She studied at the University of Berlin and came to the United States in 1925, where she began writing feature stories for German newspapers and magazines and advising publishers in New York on book translations in German, French, and Italian literature.

In 1934, Dr. Sterne became Rotographe editor of the Detroit News. Returning to school for the purpose of acquiring an American degree, she received her Master's degree in History from Wayne University in 1941 and the following year taught at that university.

For two years during World War II, her teaching career was interrupted while she worked for the United States

Treasury Department as Publicity Director of the Michigan War Finance Committee.

After the war she resumed her teaching at Wayne and at the same time extended her studies in history at the University of Michigan where she received her Ph.D. degree in 1951. The following year Dr. Sterne was awarded a Fulbright Research Scholarship for Austria and spent the year in Europe. She was asked by the United States Foreign Service to deliver a series of lectures in various German and Austrian cities in 1955 and again in 1959.

AUTHOR of articles and essays in American and German periodicals, Dr. Sterne is at present holding a position as Associate Professor in the Department of History of Wayne State University.

A vibrant personality and witty speaker who is at home on both continents, Dr. Sterne is well qualified to give her viewpoints on her subject for the evening, "Are European Women Happier Than American Women?"

## J. Meredith Pledged To Zeta Psi, Xi Chap.

John Meredith, son of Mr. and Mrs. Clifford M. Meredith, 2218 Prospect, Farmington, has recently pledged to the Xi Chapter of the Zeta Psi Fraternity of North America at the University of Michigan, Ann Arbor.

The Xi Chapter, established in 1853, is one of 37 Chapters of Zeta Psi. The Fraternity was founded in 1847 at New York University. The International Headquarters of the Fraternity are located in New York City.

A Regular Meeting of the Farmington Township Board was called to order on October 17th, A.D. 1964 at 8:00 p.m. by Mr. Curt Hall, Chairman. Members present were Hall, Avery, Cairns, Bassette, Walter, Opperhauser and Duke. Also present was Mr. J. Joseph T. Brozman, Township Attorney.

Minutes for meeting of September 28th, 1964 stand approved as published.

MOTION by Opperhauser, supported by Cairns, that payment be authorized of Vouchers Nos. 14789 through 14861 inclusive, and 1225 through 1229 inclusive, from the appropriate funds. Carried unanimously.

This request is to build extension of sewer from end of Tarabusi Artn. to Ten Mile to service the Industrial Area at a cost of some \$61,000. Area discussed by Mr. Hall with map.

MOTION by Walter, supported by Opperhauser, that the Township of Farmington request the Oakland County Department of Public Works for construction and operate sanitary sewage disposal facilities and services to be known as the Tarabusi Industrial Area Extension No. 1 of the Farmington Sewage Disposal System, as set forth in request as submitted.

Roll Call Vote: 7 Yeas, 0 Nays. Carried unanimously.

MOTION by Walter, supported by Avery, that the Agreement as submitted between the Township of Farmington and Oakland County Department of Public Works for construction of Extension No. 1 of Tarabusi Industrial Artn. Farmington Township Sewer Disposal System, be approved, and that the Supervisor and Clerk be authorized to execute the same in behalf of the Township after the submitted Agreement has been approved by the County of Oakland.

Roll Call Vote: 7 Yeas, 6 Nays. Carried unanimously.

MOTION by Duke, supported by Bassette, that the request from Mounir Haider for a new SDN license at 2670 Ten Mile Rd., Farmington, Michigan, Farmington Township, be approved. 6 Yeas, 1 Nay (Avery), Carried.

On Motion made, supported and carried the meeting was adjourned at 9:18 p.m.

Respectfully submitted,  
FLOYD A. CAIRNS  
Farmington Township Clerk

... Here's the cure. Take an old-fashioned walk this Friday along 40 feet of lusciously laden table in the Sheraton-Cadillac's Town Room. Here you'll find a colorful, succulent collection of baked ham, assorted broiled fish, a bounty of Chicago rounds of beef, stacks of disjointed chicken and dressing, oceans of Seafood Newburg, piles of pink shrimp, loads of Salmon Bellevue, mounds of vegetables, salads, rolls and desserts. The tab for this Swedish delight? One that even Mr. Benny wouldn't mind picking up... Just \$2.95 per... this entitles you to make as many journeys up and down the table as your stomach will allow. The feast takes place between the hours of 5 and 10 p.m., and if you can't get your fill in five hours, we'll give you a rain check for next week. Respectfully, the Town Room in the Sheraton-Cadillac, Detroit's largest, most accommodating hotel.

## Timely Tips on GARDENING

By Betty Frankel

Each October the landscape blazes as tree leaves take on their autumn hues. Then, just as a conflagration consumes itself, the wildfire colors disappear, leaving only ashen branches.

The leaves on a tree are like a factory in which food for the tree's nourishment is produced. When the leaves fall, the factory "closes shop" and the tree enters a dormant state. During the growing season the green chlorophyll in each leaf cell acts as a machine by which starch is manufactured from carbon dioxide and water. The process is known as photosynthesis. Light is necessary for the process which includes both a chemical reaction and a photochemical reaction. The starch formed is transported and stored in the branches and trunk of the tree. Then, as the tree needs nourishment, during the night especially, the starch is transported in the sap back to the leaves and converted to sugar and other substances which are used to build new plant tissues.

THERE is some disagreement among botanists regarding the fate of the chlorophyll when autumn comes. Some feel that it withdraws from the leaves and is stored in the woody part of the tree. Others contend that it breaks down and disappears. In any case, the disappearance or removal of the chlorophyll reveals other pigments that have been in the leaf masked by the green of chlorophyll. The function of these pigments is not known.

Chief among them are the yellow pigments known as xanthophylls and carotenoids. The uncovering of the yellow pigment results in clear yellow leaves such as on birch and

popular trees. If a brown pigment such as tannin is also present, a golden yellow color results, such as in hickory and beech.

The red color, so conspicuous in the autumn landscape, is due to a group of pigments known as anthocyanins. These are not normally present during the summer except in such plants as the purple-leaf plum and red Japanese maple. They are synthesized in the epidermis cells of the leaves in Fall during periods of bright, clear, dry weather with cool but not freezing temperatures. Frost is not the instigator of this process; early hard frosts will kill the leaves before they have had a chance to develop bright color. Weather conditions vary from year to year, and thus the brilliancy of sugar maples, aspen and dogwood varies also.

When the leaf turns color in the Fall it is because it is no longer functioning in food manufacture and is getting ready to fall from the tree. Weeks, or even months, before the leaf actually flutters to the ground, a thick corky layer of cells begins to form where the leaf is attached to the tree. When this layer is completed, the leaf drops from its own weight or the touch of a breeze.

Much as we enjoy the seasonal leaf display, we tend to take it for granted, however, the forests of deciduous trees that produce this display are found only in eastern North America, central Europe, and a part of eastern Asia, and no place has a richer variety of deciduous trees than is found in our area. Much of the world has no conception of the glories we experience each Fall as the hundred or more varieties of deciduous trees lose their chlorophyll and turn to gold and crimson.

REMINISCENT — It is late to plant evergreens so finish planting them as soon as possible and water thoroughly weekly until the ground freezes. Deciduous trees and shrubs can be planted now. Most can be moved bare-rooted, unless they are large sized trees. Continue planting Spring bulbs. Rake leaves as they accumulate.

## Voting booth for electric water heaters

If you're not satisfied, you get your money back!

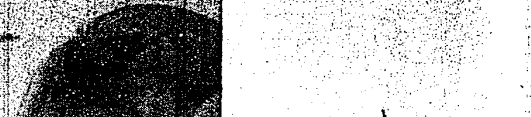

**SATISFACTION GUARANTEED**

**DETROIT EDISON**

We're so sure you'll like an electric water heater, we guarantee your satisfaction—for a whole year! If you don't get all the hot water you want, when you want it, you get all your money back, including any you may have spent on installation. And it doesn't matter where you bought your electric water heater. The Edison guarantee still applies. No strings attached. Fair enough?

This offer is good at participating appliance dealers, department stores, or plumbing contractors. Just look for our free Edison display.

RS. If you buy an electric water heater during October, we'll see that you get a free GE double-bed size electric blanket. (As if you really needed the extra push.)

**Manufacturers Bank is looking for people to lend money to...**

Responsible people with worthwhile needs. Like the new James Allison. Off on their honeymoon, there is a private world.

But, soon after they return, the price of reality will intrude. Food. Furniture. An automobile. A home. And, children. And with all of this, Manufacturers Bank stands ready to help.

For though the financial needs of the James Allison are likely to remain small for a while, there is a collateral more valuable than money. A future.

The new James Allison are the kind of people Manufacturers Bank is looking for to lend money to. Responsible people with worthwhile needs.

Like building a life together.
