A GARDENING tip: A new way to clean a planting area that is covered by crushed stone. You take the vacuum cleaner and place the hose on the reverse end. Then, you blow the leaves away from the stones and on to the lawn where you can rake them up easily. I know this works because I have seen it done.

During the past weekend a group of gals, who are friends of Mary Hedges, got together and drove up to Hedges' cottage on Diamond Lake.
