

North Farmington Athletes Flocking to Intramural Ranks

Attention! Everyone: A new spectacle has just made its annual debut on the sports scene. Yes, the fabulous, fantastic and terribly talented Intramural Basketball League has opened what will prove to be the most glorious season in Farmington history.

Word has it that this year the IML has uniforms and is much better organized than ever before.

Especially strong this year is the team called the "Spiny Antelaters," whose captain, Jerry Pound, announced, "I think we can safely say that our team would be a definite challenge to the Varsity team, if they dared to face us."

By the way, you can't miss the "Spiny Antelaters." They are the team with the cheerleaders in the purple, orange, and red uniforms, which Captain Jerry Pound selected himself (the uniforms not the cheerleaders).

Captains of other teams include Skip Moore, Tom Trausch, Rick Bensinger, Dave Clapper, and Ron Peterson. The 'A' League is mostly seniors with a few juniors, while the 'B' League is mostly sophomores with a few juniors.

The 'A' League also boasts such returning stars as Gerald Bliss, Jim Cocksles, Dennis Gladwin, Nick Olesby, Barry Smink, Bob Cross, and John Ashton.

The "newcomers" to the League are Trausch, Moore, and Clapper, who are actually former Varsity players who add to the terrific overall strength of the league.

Of course, there are many advantages to the Intramural League. It gives boys a chance to play, who couldn't play otherwise either because they weren't good enough or because they didn't have the time to practice after school. The IML offers all boys a healthy competitive atmosphere.

One outstanding feature of this year's 'B' League is that it will have a trophy for the winning team. However, due to the overwhelming benevolence of the Student Council, the boys must buy their own trophy.

Other awards in the planning stages are the Tim Bourke Award, the Bill Hall Award, and the Bob Lindermann Award. The first two of these will be given in the 'A' League, while the Bob Lindermann Award will be given in the 'B' League. If it was given in the 'A' League, Bob would walk away with it again this year.

So, fans, "if you appreciate basketball at its dribbling, passing and shooting best," be on hand at every IML Game. The 'A' League games are Tuesdays at 6:30, 7:30, and 8:30. The 'B' League games can be seen on Saturday mornings.

Bring your family, friends and relatives and have a picnic in the bleachers. Admission is free and "cheap at twice the price." The IML welcomes everyone.

Now, isn't it obvious you can't afford to miss one game? Come and see the uniforms and the cheerleaders in glorious color. Yes, they'll all be there, Purdue, Harvard, Amhurst, Will the Do-Whoppers, the Anchovies, and the Sim-a-gos Sicks, which under the capable direction of Mr. Dennis Fitzgerald and Mr. John Harrington, affectionately called, "Moose."

NFHS Debaters Aim for Title

Miss Rohm's debaters have been winning their share of debates this year and will be a heavy contender for the North Farmington State League championship coming up in two weeks. Miss Rohm believes that Oak Park will be the toughest opponent in the conference battle.

The season record for the North Farmington debaters is 30 wins and 8 losses in judged debates.

The NF debaters hit a streak of bad luck at the first annual Spartan Tournament held at Michigan State University. The debaters recorded one win on the affirmative but suffered losses in the other five debates. NF traveled to Eastwood to start the State League season. NF defeated the girls of Ladywood by sweeping all four debates in a good form.

The Barbers are undefeated in Northwest Suburban competition. They defeated their new rivals at John Glenn with a clean sweep of three victories. The JV, negative of Bobbie Wieder and Tom Carley took a brief rest as the JV negative debate was called off.

The debate team traveled to Schwartz Creek on Thursday, January 7. Only the two varsity debates were held and NF again came up with two victories furthering their outstanding season record.

Next week our debaters will play host to the "Protest" team on Thursday.

Attending School At Northwood Inst.

Keith E. Sutton, son of Mr. and Mrs. Eric Sutton of 30324 Wicklow Street in Farmington, is a freshman student at Northwood Institute this term. He is on the liberal arts curriculum.

The half-lek of Albania, the 10-golden piece of Danzig, the 10-drachma piece of Greece, and the rupee of India are intramural leaders among the world's coins which have been minted of pure nickel.

NF Cafeteria Flicker Time Slated for Trial

North Farmington students will soon have the opportunity to view successful, well-known movies at one-fourth of the theater price.

Monday, January 18, will be the showing of "Voyage to the Bottom of the Sea." NF depicts the encounters of a first experiment in a new lunch period privilege. Twenty minute portions will be shown in each of the four lunch hours and it is hoped that the complete film will be shown in one sitting.

259 from NFHS Plan College

This first semester, many of the seniors have put in their applications to the college of their choice. The guidance office has issued a tentative report of the colleges which have been applied to and the number of students who have been accepted:

Mich. Tech. U.	6	3
G M Institute	5	3
