The Lone Ranger

In February, we (The Detroit Area Chrysler Dealers) started an advertising campaign featuring segments of the original Lone Ranger radio show.

Our logic was this: The Lone Ranger was a Hometown product, Chrysler is Detroit's Hometown Car.

We felt there was no one better suited to be our spokesman than Brace Beemer, the voice of the Lone Ranger.

Brace talking about Chrysler was as natural as a Detroit talking about automobiles.

Brace, the man, is no longer with us. Brace, the Lone Ranger, is.

As Brace himself said, the Lone Ranger was more than a radio character.

He was a symbol of a way of conduct, of goodness, justice, and of a deep concern for others.

As you may know, we had planned to offer an LP album of two Lone Ranger episodes originally recorded directly off the air.

So great has been the public interest in this album, we are reinstating the offer.

The Lone Ranger was a classic of American folklore, the likes of which can never be repeated.

With genuine pride and humility we take this opportunity to do something very few people are ever privileged to do.

To help preserve a legend.

A collector's item. Two complete, recorded-off-the-air episodes of "The Lone Ranger." These are not re-creations but shows as they were originally broadcast.
You can get this LP album at cost (\$1.00) at any Detroit Area Chrysler Dealer.
As you might expect, the supply of these records is limited. So act now.

You build a new home to get exactly what you want

why not get the heating system that gives you exactly what you want

Electric heat is custom heat. There's a thermostat in each room so you can dial the exact warmth you want... in the baby's room, the den, the kitchen, every room!
Electric heat is the clean, modern heat. No drafts or cold spots. You get even heat from head to foot. Ideal for your new home.

It's also a good choice as supplemental heat for your present home—to warm up a chilly bedroom or new family room. The cost? That depends on your particular home. Electric heat may be your most economical heat. It won't cost you a penny to find out for sure. Just call Edison for a free estimate,

EDISON

A lower all-electric rate saves you as much as 20% on your heating bill if yours is an All-Electric Home. More reason than ever to enjoy all-electric living.
