

# A Lot of Cleaning Up to Be Done

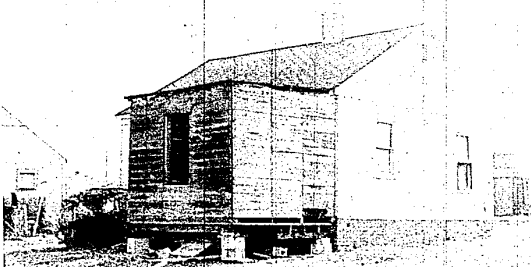

THE JUNK PILE along side of the garage in the picture above is an indication the property owner has been busy getting ready to discard items which are no longer useful to him and other accumulated rubbish. The special trash pick-up details scheduled this month in Farmington Township are designed to assist property owners in getting rid of their junk and rubbish right along with their regular trash.

OLD LUMBER AND SCRAP which can be seen out in the open behind the storage sheds pictured above present an eyesore to neighbors as well as a potential danger for children who might be injured playing on the old

lumber piles. This month is a good time for property owners to put their lots in order and store such things properly so as not to present unsightly and dangerous conditions.

A GOOD COAT OF PAINT would probably improve the looks of the storage shed attached to the house pictured above even though the owner may be intending to complete the job started some time ago on construction of the spare room. Construction jobs which get delayed for one reason or another should not be left in such a state as to detract from the overall appearance of the house and property.
