

Makes Three Hour Trip Here From California

First Lt. John T. Buck, a jet fighter pilot in the 34th Day Fighter Squadron, spent the November 23rd weekend here with his parents, Mr. and Mrs. H. T. Buck of Macomb Avenue.

Lt. Buck and his wife, the former Nancy Isely, live in Wrightwood, California, with their two children.

He was accompanied on his three hour flight from Los Angeles by First Lt. Richard Hilton of that city. The two fliers attended the Michigan - Ohio football game while here and visited the Phi Delta Theta fraternity in Ann Arbor. Lt. Buck is a past president of that fraternity.

I believe the true road to preeminent success in any line is to make yourself master of that line.

A CHANCE for youngsters and teachers to look over and choose some of the books they would like for their own school libraries was provided last week. Children from the various elementary schools in the Farmington Public School system were transported to the new William Grace School where they had an opportunity to examine more than 300 books in the "Books on the Floor" display. The display was scheduled and handled by Mrs. Frances For-

syth, elementary librarian for the Farmington Reading Clinic. The books displayed were a collection of junior library books selected for schools and libraries from the latest list of a group of leading New York publishers. Seated on the floor in a corner of the multi-purpose room are a small group of youngsters looking through the book choices they have made for their own school library.

Farm Gp. Meets At Union Lake

The Pernambuco Farm Bureau met at the home of Mr. and Mrs. Roland Green at Union Lake for its November meeting.

A total of 13 families were represented including one new member. Plans for the club's Christmas party were discussed. A potluck dinner will be served at the Farmington Country Club at the meeting on December 17.

A discussion on "Trailer Parks and Their Fair Share of Taxes" was led by Wallace Williams. It was determined by members that the taxes are not fairly shared by the landowners and trailer parks in our area and that the law doesn't function fast enough to take care of our changing needs.

The feeling was also expressed that it would be helpful to require persons living in trailer courts to buy a new license each year. Refreshments were served by hostesses June Green and Edith Knapp.

A new Christmas tradition in several hundred American communities is the annual "Toys for Tots" campaign—a Christmas toy collection program sponsored by the Marine Corps Reserve for less fortunate children in each locality. More than one million needy children this year will receive gifts from "Toys for Tots" in the best American spirit of working together.

Townships Assn. Now in Lansing

Township Treasurer Elise P. Avery, Oakland County Director for the Michigan Townships Association, commented that she was highly pleased with the recent efforts of establishing Association headquarters in Lansing.

"The Association, which formally had offices in Kalamazoo, now has its headquarters in the Englewood Building at 4000 South Washington Avenue, Lansing.

"Ever since we organized in October of 1953 we have worked towards establishing a headquarters in Lansing for our Association," President William H. Thorne said.

Much of our activity is with the State Legislature, Thorne said, and this "puts us right in the center of activity for our organization."

He added that "this will permit township officials to come directly to Lansing with their problems, where we can give practical assistance as well as providing a place for our members to come home."

Joseph A. Parisi, Jr., executive director of the association, said "this to me represents one of the most important days in the history of the association."

The executive director said locating in Lansing "will mean a much more efficient operation and more readily available means with which to cope with the numerous problems of townships and township officers."

The office is only three blocks from the capitol building and minutes away from other state office buildings and agencies.

Traffic Bill Staggering

The nation was handed its 1957 traffic bill this week by Thomas N. Boate, manager of the Accident Prevention Department of the Association of Casualty and Surety Companies, and it came to a staggering grand total of \$723,600,000!

That is the estimated cost of a single year's traffic mayhem based on figures for the first nine months of this year and a projection through December 31. It is the highest figure in the history of the automobile.
