Begonias Make Dazzling Display

By BETTY FRANKEL Special Writer
Rieger begonias, new hybrideponias being grown by the point of the produce a great quantity of large biscosmis for a dazzling clusters for a dazzling and terminal clusters of deligible green leaves and terminal clusters of deligible green deep green and even and terminal clusters of deligible green leaves and terminal clusters are deally spring, and during or early spring, and during or earl

Pest Of The Week

The small branches of Russian olive both in the rsery and home ground are showing a great deal dieback in the spring of the year for the past sev-

It is caused by a fungus canker disease (Fusi-coccum elaeagni). Damage varies from a small amount to sometimes as much as half the plant or more. Small black or dark brown cankers appear on the small dead branches.

CONTROL: Maintain plant in good growing condition by fertilization once a year, watering during drought, and avoiding root disturbance. Prune out and destroy infected material. No chemical control is available.

Swing Seat Easily Made

Swing seats that hang from each end of the 2x4s, then carch beam or a sturdy limb ban be made from two dy-foot lengths of 2x4-inct sestern wood, two 3xinch blees of one-inch dowel, marine canwas, chain and four eye bolts.

The canvas, 31 by 66 nches, has three-inch side ems for strength and loops re sewn at each end for the owel to pass through.

31 by 66 shorter than the fro perinch side a slant to the seat.

hems for strength and loops are sewn at each end for the thowel to pass through.

The dowels are inserted, through holes drilled near lengths of chain.
