To Our Friends and Neighbors
in Farmington Township:
We lost in the February 16 Primary Election but we want to thank everyone who voted for us for their confidence and support.
As we indicated in running for office, we are very interested in the future of Farmington Township and we want to keep it a GOOD PLACE TO LIVE. We honestly feel that the best way available to accomplish this is to vote for the Republican candidates in the APRIL 6th election.
All of these candidates have signed the Republican Community Preservation Platform. This is their pledge to try to keep Farmington Township a GOOD PLACE TO LIVE.
So we ask you to support the Republican candidates by voting STRAIGHT REPUBLICAN on MONDAY, APRIL 6, 1959.
Thanks again,
JOSEPH T. BRENNAN FLOYD R. JAYE

PTA Survey Reveals Michigan Citizens Want Better Education Opportunities, Schools

Improved educational opportunities and better schools, even though more money would be required, are what the citizens of Michigan have indicated they want.

These were the principal findings from a state-wide survey of schools and the needs of education conducted by the Michigan Congress of Parents and Teachers and the Michigan State Board of Education. The survey was conducted by the Michigan State Board of Education, which is the state's highest educational authority.

A MAJORITY of those taking part in the survey expressed an increase in the sales tax as a means of raising funds to guarantee comprehensive educational opportunities for all children. They were divided almost evenly, however, on increasing other existing state taxes.

It was indicated that 66 percent favored federal aid to education, while 34 percent favored state aid. More than 90 percent believed that state funds should be provided for research at public colleges and universities.

AN INCREASE of college and university tuition rates for students as a means of meeting building fund requirements was also generally opposed.

More than 90 percent believed that state funds should be provided for research at public colleges and universities.

State Road Building Hits High In '58; More Planned in '59, '60

Michigan's \$14 billion state trunkline highway construction program is moving rapidly along and ahead of schedule, the State Highway Department reported in its annual year-end summary of work for the past 12 months.

Announced in October, 1958, by Highway Commissioner John C. Mackie after a careful study of Michigan road needs, the 5-year program called for the construction of 101 new express highways, 2,000 miles of other new road surfaces, and the end of grade roads on the state trunkline system, all of this type of road to be replaced by concrete pavements or bituminous surfaces.

In 1958, the Highway Department completed an all-time high of an estimated \$190 million in construction work being placed under contract. Included in these figures are right-of-way and engineering costs.

Approximately 150 miles of new, dual highways and 40 miles of other types of road were opened during the year.

During 1958, nearly 200 projects were placed under contract. 46 of them being let in the 5-year program, and 2 being projects added to the program during the year. Only 31 projects on the 1958 schedule have not yet been advertised but will be placed under contract early in 1959.

Over the past year, progress has been made in paving operations shut down for the winter.

Reports from the U.S. Bureau of Public Roads in Washington have indicated repeatedly that Michigan has been one of the "top states in the country in amount of state trunkline highway construction project placed under contract through 1958."

In 1958 the Department completed 101 miles of express ways; 41 miles of two-lane and four-lane, undivided roadways; 274 miles of aggregate base in preparation for bituminous surf-

SPRING ARRIVES
The vernal equinox, when the center of the sun crosses the equator and the sun begins its swing into the northern hemisphere, occurs this year on March 21, and then spring is officially here. The ground is still icy and temperatures fall below freezing at night, but the sun is warmer and plants are stirring in the earth.

PRUNING
When mild weather lures the gardener outside, pruning is the first chore that can be done. Check trees and shrubs for branches that are dead, broken, or accumulating and remove them. Remove branches that rub against others and cut off any dead wood. Prune suckers and grubs to improve the shape but keep a natural conformation.

Summer flowering shrubs can be pruned now, without loss of blossoms, as flower buds are formed on each year's new growth. Spring flowering shrubs form buds for last summer and pruning of these shrubs is generally done when flowering is finished. However, pruning may be done now and the branches that are removed can be brought inside and forced into bloom.

Save sturdy branches that are removed and use them for garden stakes.

Prune and burn any twigs that bear signs of insect infestation.

Columnist Russ Metz, The Salem, Ind., Republican-Leader, says every town has its share of soreheads, those weak minded characters who find it easier to be down on the critics and take them as they come. But soreheads have a use in community life. Many parents feel their children that's the way they'll look if they don't brighten up and fly right. We need a few scarecrows to show our young people how not to end up like.

New Industrial Development Head for Wisc.

David Carley, former Farmington resident and a 1948 graduate of Farmington High, has been appointed by Wisconsin's Gov. Nelson as director of industrial development for the state.

Carley, whose home is in Madison, will take over his duties on April 1.

Research director of the Wisconsin State Chamber of Commerce, Nelson has been the chamber's spokesman in its campaign for enactment of a state sales tax.

A close friend of Gov. Nelson, Carley, 38, has been with the State Chamber of Commerce for five years. He helped draft the Farmington tax bill in the 1957 legislature which would have enacted a sales tax and repealed the personal property tax. Carley was also a member of the state chamber's committee of former Gov. Vernon Thomson, a Republican, for opposing a sales tax and recommending a 1 percent flat tax on new industry called "deceitful."

Carley holds a master's degree in public administration from the University of Wisconsin. He was assistant to the Kalamazoo city manager from 1950 to 1952. In June he will receive a Ph. D. degree in political science from the University of Wisconsin.

Carley said that one specific thing he and Gov. Nelson were interested in was finding a way of getting Wisconsin financial institutions to underwrite new and expanded industries. The capital for new industry is one of the state's basic problems, he said.

Carley said that one specific thing he and Gov. Nelson were interested in was finding a way of getting Wisconsin financial institutions to underwrite new and expanded industries. The capital for new industry is one of the state's basic problems, he said.

C-C Survey on Traffic Light

Opinions on necessity for a traffic light at the Grand River/Orchard Lake intersection are being asked this week by the Farmington Chamber of Commerce, as the result of a survey Monday.

Chamber officials say they have received complaints from residents and merchants about traffic tie-ups at the corner. They feel a survey of opinion would be helpful.

IF WARRANTED a request for help may be made of the city. A couple of years ago before the expressway was built, the city made a study and told the city that the city would have to straighten Orchard Lake before a traffic light could be installed. The state delayed a long time, but finally put the light at 9 Mile, feeling it would slow traffic at Orchard Lake.

City Manager Earl Schuchman says the state still controls Orchard Lake, and the city could only make recommendations for a light.

Also the board meeting P. G. Schlatterbeck was named chairman of the Congressional Action committee. Jack Ostro was named to again lead over the Health and Education committee and Don Pullen was named program chairman.

Back in 1900, a New York bank had an "eye-for-the-ladies" provided a special row of teller windows as well as all the telephones for their convenience. Today, many banks court the fair sex with thoughtful touches—like upholstered chairs, colorful murals, flower boxes, piped-in music and soft lights.

Veterans Holding GI Home Loans Warned About "Equity Skinners"

Veterans who get behind in payments on their GI home loans should check carefully any offers strangers may make to apply the delinquent payments to the loan, warns a spokesman of the Veterans Administration Regional Office in Detroit, Michigan, who says there are "equity skinners" or "equity skimmers" who are trying to get a share of the equity in the home.

Veterans should beware of any individual who offers them a sum of money, usually a few hundred dollars, in exchange for their signing a deed or other papers in connection with their home. Promises of such individuals to make payments on the veteran's mortgage, or to bring the loan current, usually are not kept.

Cases are known where an individual has been convinced to turn over the deed to his home to a stranger, who then has been able to sell the home and keep the proceeds.

Mr. Jameson further advised that (1) the veteran is the original borrower; (2) intend to let his buyer take over the payments on his GI loan, the GI Bill provides that he can be released from liability to the Government if certain conditions are met. In such case write to the VA office.

FHA Delegates to State Meet Named

Four Farmington high school students will attend the Future Homemakers of America state conference at Grand Rapids April 16 and 17.

They are Jackie Gebben, resident pianist; Marcia Marsh, chapter president; and Frances Foster and Buvetta LaForge. The four will be accompanied by Mrs. Jack Gebben, chapter adviser, and Mrs. Marjorie Elgin, advisor. Alternate delegates are June Habicht and Pat Bishop.

Miss Gebben was recently elected to represent the FHA at the national convention in Chicago in July.

Four Farmington high school students will attend the Future Homemakers of America state conference at Grand Rapids April 16 and 17.
