

BEARS OF MAINE ARE VERY HARD DRINKERS

BILL BABCOCK HAS SEEN 'EM AND EXPLAINS HOW THEY ACQUIRE EVIL HABIT.

Bangor, Me.—"All the bears of Penobscot county I have ever known," said William Babcock, of Bangor, "feel as if they cannot den up for the winter until after they have had a protracted drunk from eating crab apples that have stayed on the trees clear through and then hung out and thawed in the sunlight and repeated the operation until fermentation set in and the sweet cider had turned to a good imitation of old Medford rum."

"Of course a bear that is real fat, so fat that his eyes are closing up and making him blind, will stagger

MISS SOPHIA KITTLESSEN, EVANSTON, ILL., WRITES:

"I have been troubled with catarrh for many years. The doctors have tried many cures for it, but obtained very little help."

"My brother-in-law advised me to try Peruna and I did."

"My health was very poor at the time I began taking Peruna. My throat was very sore and I had a bad cough."

"Peruna has cured me. The chronic catarrh is gone and my health is very much improved."

"I recommend Peruna to all my friends who are troubled as I was."

PERUNA TABLETS—Some people prefer tablets rather than capsules. In that form, such people can obtain Peruna tablets, which resemble the medicine in its original form. Each tablet equals one average dose of Peruna.

Winter Jackets

These designs are suitable for making up in cloth that may be worn with any skirt. For instance, the first would look well in brown cloth. It is especially good for winter wear, as being double-breasted. It is warm; the collar is faced with velvet, so are the turned-up cuffs. Hat of brown stretched satin, trimmed with satin and wings.

Materials required for the jacket: Two and a half yards 52 inches wide, five yards lining silk, half yard velvet.

The second is in dark face cloth. It is very smartly cut, the front being quite short, and fastened on the bust. It is lined with a fold of green and dark finely checked silk. The three-quarter sleeves have deep turned-up cuffs bound with silk. Break fast hat trimmed with velvet and wings.

Materials required for jacket: Three yards 52 inches wide, five and a half yards lining silk, half yard checked silk.

THE ONEPIECE GOWN. Fashionable and Becoming. It is Popular This Winter.

Each week gives added popularity to the one-piece gown. It really is one of the best things that have come out of the fashioning world.

A good suit is all very well for a working world or busy hour, but when one is in the house or going out where where friends are gathered together, the one-piece gown is the correct costume.

It can be dropped a long coat of cloth, satin or fur, which is discarded at the house.

These gowns are made of such soft cloth that one of them was worn through a brace-tail suit. It was a pink massing silk with a full, ruffled, ruffled skirt and a duster.

Others are made of navy blue, black, canary or lavender satin and satin cloth. There is no fluff, but a great many beauties.

In some of them a shallow front with long sleeves is attached but the majority are made up without sleeves.

While they vary in trimming, the good time is the same, straight, high-waisted skirt, narrow short-waist or blouse, small square sleeves and shallow round neck.

These gowns are so soft and pliable that they can be put in a traveling bag without being mussed.

There has never been so becoming and fashionable a costume which will "take up" so little space and have so little weight as this new one-piece gown.

The idea is carried out in everyday indoor frocks made of soft wools, summer cretons, plaid cashmeres.

The skirts are cut short and wash gummies are worn under them. No belt is used, as the high waisted skirt is cut into bellows or battlements and stippled and stitched to the blouse.

Alcohol for Throat. To obtain the luster of polished marble, which is so admired on throat and shoulders displayed by a decolette gown, do not use powder, as this will surely show. Instead, give the neck and shoulders a warm, almost hot, bath, and while the skin is in a moistened and fresh condition apply the neck and shoulders with clear cologne water. The cologne will enter into the pores and will make the shoulders appear white and with the coveted luster. Alcohol will serve the same purpose, but the cologne is more refreshing and delicate.

Short Bones in Corsets. It is interesting to know that while corsets are longer, the bones in them are shorter. They go over a sort of the hip, but do not run down to the end of the corset. These long bones were found disastrous, as they were constantly breaking or bending and pushing the corset into a curve below the waist.

Now the bones stop short enough to prevent breakage, and the corset is strapped and stitched and fitted to the figure for the rest of the length.

Net Vails. The vails of Russian net are too becoming for women to relinquish them in favor of a newer but less attractive weave, and so this popular vailing is included in the new importations.

It comes in black, white and the staple colors, with a few of the newer shades.

Black and white complexion vails are worn as much as ever, the fine mesh and small dot being preferred to the coarser thread and large dot.

Blouses of Crepon. Women who are in mourning or who wear black from choice may find the most charming blouses in black crepon a really moderate price, considering the excellent style and workmanship.

Being of a crepy surface very little trimming is necessary. Often it will be only lace or faceting. One pretty model seen recently had the long sleeves crossed with faceting, which was effective on the crinkly material.

The collar and short yoke was a combination of heavy lace and faceting.

Benzoin in Lotions. When adding benzoin to a cream or lotion it should be added drop by drop at first, and slowly always, or otherwise it is apt to curdle.

When used in bath water this effect is not marked. Enough should be poured in to give the water a milk look.

NINETY-EIGHT FEET SHY.

Mr. Gouty—Thank heaven, I'm not a centipede.

Catarh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. CATARRH is a local inflammation of the mucous membrane, and is not cured by any local treatment. It is a disease of the blood and must be cured by a general treatment.
