Speaker Currie announced the standing committee on the hour. The bill was received with more satisfaction than the speaker's committee appointments have been usually received. None of the 11 Republicans who bolted the republican caucus last week, when Speaker Currie was nominated, was disciplined.

The two minorities agree the speaker did the handsome thing by them. There are 62 congressmen and he appointed democratic chairmen of 20, and the total number of democratic members is 24. There are 11 national progressives and four of them received chairmanships. This left 38 for the Republicans.

Rep. Noble Ashley, who was the "non-partisan" candidate for speaker, and his manager, Rep. Martz, are satisfied the speaker has no black mark against them. He made Rep. ARCHBALD IS GUILTY

Senate Holds Commerce Court Jurist Influenced Officers of Erie R. R.

Judge Robert W. Archbald, of the commerce court was voted guilty of graft by the United States senate, sitting as a court of impeachment.

This means his expulsion from office and that he never again can hold any office of public trust or honor in this nation.

There were 12 articles of impeachment sent by the house of representatives to the senate to be voted on separately by the senators.

It was only necessary that the accused be found guilty on one charge to expel him. Thus when the first vote was announced his fate had been sealed.

A two-thirds vote was necessary on each ballot to sustain the charge then being voted on.

Archbald was found guilty on the first charge by a vote of 68 to 3. The impeachment proceedings against Judge Archbald were started early in 1912, when complaint was made to the interstate commerce commission, and later to Attorney General Wickersham and President Taft, that Judge Archbald had been concerned in influencing railroads to grant him certain favors in connection with coal land deals, and the settlement of cases involving coal properties.
