Presenting the lesson were Mrs. C. Meyers and Mrs. P. Dickinson. A tasty dinner for the ten members present was prepared by the two women.

Herbs were used to give a special flavor to each dish. They pointed out that it is important to use herbs with a "light hand" to enhance flavor not to dominate it.

On May 6 a special Annual Day was held. On May 12 a group will visit the state hospital at the Northville State Hospital.

Pupils Enjoy Rhythmic Work After School

Since February 9, boys and girls in the third through sixth grades at Ten Mile School took part in an after-school rhythmic activities program every Monday, taught by Maynard Harvis, fifth grade teacher.

The program included round folk, and square dancing. Children attending needed no previous dancing experience in order to participate successfully.

The schedule called for the third and fourth grades and fifth and sixth grades to meet alternately in the all-purpose room every Monday from 2:45 to 3:30.

This after-school activity was not connected in any way with the school day program. Participation was entirely voluntary.

Attendance averaged around sixty boys and girls altogether from the four grades.

"The purposes of this program were to provide a wholesome, experience by which children could make new acquaintances, develop cooperation, coordination, enjoyment, confidence, interest, leadership, grace, poise, sharing and expression, as well as good and proper social and mental attitudes," said Mrs. Harvis. "It is felt by all concerned that the program was a success because the proper interests and attitudes were present."
