MISS L. A. AULT
Phone GR. 4-1291

As a farewell to Mrs. William Fisher, who is leaving shortly to establish a new home in Gulfport Florida, Mrs. Grace Simpson entertained under the trees near her home, Wednesday afternoon, July 1. The affair took

place of the regular Sunshin meeting. About thirty friends and neighbors were in attendance. A luncheon was served and brief devotional exercises followed. After which a committee, including Mrs. Stanley Chavey and Mrs. Cecil Willet, representing the neighbor-

hood, presented Mrs. Fisher with a gift of table linens. Note was made of the fact that the date, July 1, was Mrs. Fisher's 34th wedding anniversary. She has been a very faithful and dependable in Sunshine Sister activities and will be greatly missed by the community.

The next Sunshine meeting will be held at the Neighborhood Church at 2 p.m. Wednesday, July 15.

AT A THURSDAY Luncheon Mrs. Edna Vance of Mayfield Ave. has been spending a few days with her daughter, Mrs. Bill Spencer, and her family near Garden City.

Mr. and Mrs. Joseph Sidlinker, from Lutz, Florida, were Wednesday morning guests of the Misses Lora and Freda Ann Newkirk.

MISS HANNAH JOHNSON of Charita Ave. spent the past week with her cousin, Mary Margaret Hunter, in Detroit.

Miss Anne Johnson of Charita Ave. has returned home from a two-week visit with her cousin, Miss Carol Anne Porter, in New London, Ohio.

The Fred Kasis of Osmus Ave. visited relatives in Fowler, Mich., Sunday afternoon.

Mr. and Mrs. Tom Harrison from Farmington have purchased the Dunham property on Farmington rd. and with their children, will shortly be occupying it.

Mr. and Mrs. Hoskins from Farmington have purchased the Fisher property on Mayfield Ave. and with their five children, will be occupying it after July 15.

Miss, five year old son of Mr. and Mrs. Stanley Morgan, Mayfield Ave., has been reported on the sick list.

Mr. and Mrs. Emerson talk to California, M. Emerson of Mayfield Ave. enjoyed a short visit with his nephew, Coastguardsman Wayne M. Wayne is the son of Mr. and Mrs. Clinton Ault, Mayfield Ave.

Within a few days the William Liebig of Westmore Ave. will be getting themselves established in their new home at 1828 Loveland, Livonia. Rev. Willard Martin of the Baptist Church on Schoolcraft, in Livonia, has purchased and is occupying the Liebig property on Westmore Ave.

Mr. Laughman's parents, from near Mishawaka, Indiana, have been house guests this past week of Mr. and Mrs. Robert Laughman on Lathers Ave.

Private Floyd Thomas from Tennessee is home on leave for a visit with his wife, Jewel, and their young son, Benny, who reside with Mrs. Thomas' parents, the Richardsons on Eight Mile Rd.

LAST WEEKEND Mr. and Mrs. Clinton Ault, of Mayfield Ave. visited relatives at West Branch.

Mr. and Mrs. V. C. Reddy of Farmington Rd., were recently visiting with Mr. and Mrs. Edward Palmer of Howell. The Palmers are former residents of Shadyside Avenue.

July Fourth, friends and neighbors were extending congratulations to George Welsh of Mayfield Ave., who was celebrating his 93rd birthday. Mr. Welsh gardens keeps house, cooks, cares for his invalid wife and occasionally hikes to Farmington.

Cadet Bruce Cutler Richards has been appointed Cadet Company Executive Officer of Company G at General Military Science Reserve Officers' Training Camp at Fort Devens, Massachusetts.

While in this assignment, he will perform all the duties of a Company Executive Officer and will be able to put into practical usage all of the traits of leadership which his ROTC training has taught him.

Cadet Richards, the son of Howard L. Richards, 31722 Sherwood Street, Farmington, is a mathematics major at Middlebury College.

Some of his extra curricular activities are: ASP Fraternity, Co-captain of the Soccer Team, and Dramatics.

The selection of this cadet for the position of Company Executive Officer was the result of his proving himself an outstanding student of military science and tactics.

It's too bad future generations can't be here now to see the wonderful things we're doing with their money.

Timely Tips on

GARDENING

By Betty Frankel

Delphinium, with their tall spikes of blue blossoms, are among the loveliest of garden flowers. Colors range from palest azure to deep indigo purple, with some white and pale pink appearing in some varieties.

The two most commonly grown types are the English delphinium and the belladonna delphinium. Delphinium belladonna produces numerous three to four foot spikes of pale blue flowers in June and again in September. They are graceful in the garden and make an excellent cut flower. Delphinium belladonna is a dark blue form of delphinium belladonna.

The English delphinium grows slightly taller than delphinium belladonna. The stems are firm and erect and the flowers are large. The color range includes pale blue, mauve, pink, and lavender. Giant Pacific hybrids are popular with many gardeners.

The exceptionally tall, sturdy stalks are thickly set with handsome flowers with a prominent contrasting center "bee." The white varieties are known as the Galahad series. The King Arthur series consists of plants with brilliant, deep purple-blue flowers, and the Summer Skies is composed of delicate light to medium blue shades. The Round Table series is a hybrid mixture of all known shades.

Despite their sturdy appearance, these Pacific hybrid plants are not as long lived as English or belladonna delphinium. Some gardeners prefer to regard them as biennials and replant new plants each year.

LEAST WELL known of the Chinese delphinium is the charming little pale blue, mauve, pink, and lavender spikes, which are loosely studied with single, long-spurred flowers. They are two to three feet in height. Typically, the flowers are an intense gentian blue but occasionally some plants bear light blue blossoms.

Chinese delphinium commenced flowering several weeks after the other delphinium, but continue throughout the summer. They are excellent for the middle or foreground of the perennial border. They also make dainty cut flowers.

Annual delphinium are known as larkspur. The colors are

and form are similar but the plants are much smaller and the general effect is airier and daintier but less dramatic. Delphinium require a rich, well-drained soil and a sunny location. It is best to work well-rotted manure into the soil before planting.

Planting may be done either in early Spring or in Autumn. For a most effective display set several plants in a group, allowing eighteen inches or more between plants. Chinese delphinium may be set ten to twelve inches apart.

Faded flowers had should be removed promptly before seeds start to develop. This will enable subsidiary shoots to develop and provide a second display later in the summer.

Delphinium are easily grown from seed freshly gathered and planted in the garden. Young plants need some winter protection and do best in a cold frame, but will do satisfactorily in an open bed with a protective winter mulch. By the following Spring the young plants are ready to be set in beds and borders where they will add the accent of their tall stately blue spikes to the garden picture.

REMEMBERS
Reseed harvested rows of lettuce, radishes, and spinach with radishes or beets. . . Fertilize rose bushes to encourage more plentiful bloom. . . Keep bird bath clean and filled. . . Spray banks and heavy branches of peach trees with DDT to control peach borers.

At Institute For Chemists

Berunamm C. Brewbaker of 37373 Glenview Drive, Farmington is one of 29 gifted high school instructors selected for a summer institute in chemistry which began his week at Bowdoin College in Brunswick, Maine and will continue through August 7.

Approximately 200 teachers from secondary schools throughout the United States and four foreign countries are taking part in institutes at Bowdoin in biology, mathematics, and physics, as well as chemistry. The courses are designed to improve the teacher's subject matter competence and to make him better able to interest qualified students in science careers.

The institutes, which offer graduate credit where possible, are sponsored by the National Science Foundation. Each participating teacher will receive a stipend of \$75 a week, with additional allowance for up to four dependents. He teaches chemistry at Southfield High School in Detroit.

From where I sit... by Joe Marsh

Slim Pickins-Up!

Slim Thomas' wife thought up a pretty slick way to get Slim to clean up their front porch.

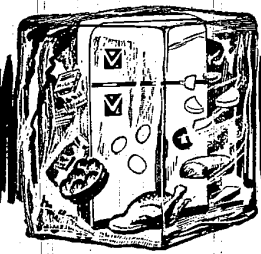

Slim had a habit of leaving his tools there before coming into the house. And he'd always tell his Missus he'd get around to tidying up later.

So Mrs. T. nailed a large sign to the porch for all passers-by to see: "THOMAS' JUNK PILE, DUMP YOUR OLD EQUIPMENT HERE!" When Slim saw the sign he cleaned that porch so fast he was through before any junk depositors turned up. Threw the sign out, too.

From where I sit, sometimes it takes the "dramatic" to show folks they're wrong. But usually you can solve things by talking them out. For instance, my neighbor once objected to my preference for an occupational glass of beer. But after discussing it with him, he realized he was just plain intolerant. Now he accepts my choice as I accept his. What do you say we "clean up" all intolerant thinking?

Joe Marsh

Natural GAS
YOUR SILENT SERVANT

Mother Nature Helps Get Frost From Flame

The process of using natural gas to chill a refrigerator turned out to be a matter of applying some of Mother Nature's laws. Chemicals are heated over a tiny gas flame until they become a vapor. The vapor condenses as it absorbs the heat and causes quick cold. The liquid refrigerant is drawn back to the flame by gravity and the cycle begins again.

Nearly three million families today enjoy the smooth, silent, automatic operation of gas refrigerators. Since gas refrigerators use less fuel and have no moving parts to wear out they spell real economy.

Only GAS does so much, so well... the modern fuel for automatic cooking... refrigeration... water-heating... house-heating... air conditioning... clothes-drying... incineration.

CONSUMERS POWER COMPANY

Army Recruit Lawrence T. Myers, 19, son of Mr. and Mrs. Harley R. Myers, 28035 Norfolk, Livonia, recently completed the central office telephone switchboard operation course at the Southeastern Signal School, Fort Gordon, Georgia. During the eight-week course, Myers was trained to operate and maintain switchboards. He entered the Army last January and completed basic training at Fort Leonard Wood, Missouri. Myers attended Clarenceville High School.

Local Youth Trains As Army Reservist

Farmington resident Brian G. Rogers, 20, is one of 60 U.S. Army reservists from the Detroit area attending a two-week summer camp at the Army's Information School, Fort Slocum, New York.

A member of the 202d Army Overseas Radio Station, Rogers is currently undergoing a training program for information specialists. He will then qualify to work on Army news publications or in Army community relations offices.

He lives in Farmington with his parents, Mr. and Mrs. Alfred G. Rogers, 21200 Goldsmith.

Hearts may be attracted by assumed qualities, but the attractions are not to be fixed but those that are real. Charles Alexandre de Moya.
