Gives Pointers on Fertilizer Use for Healthier, Better Lawns

Keeping a healthy, luxuriant lawn is very easy to do if one can remember that grass plants need food as well as water to be at their healthiest.

The Michigan Association of Nurseriesmen points out that most people water their lawn enough, but it is the feeding that is usually neglected.

Grass plants, being strong growers, also require food in balanced proportions to keep them vigorous and healthy.

A properly fed lawn is able to stand weeds and crabgrass. What kind of fertilizers to use? Not all fertilizers are intended to feed the same plants.

Robert B. Lindbert, Mayor, Thayer M. Quinn, Clerk

To find one's work in the world and do it honorably, to keep one's record clean so that nothing clandestine, furtive, surreptitious can ever leak out upon one from ambush and spoil one's life, to be able therefore, to live honorably and honestly with one's soul because one keeps there no secret place like the bloody closet in the heart.

John Clappison Fire Insurance Phone GR. 4-5111

Who hath not learned that I believe the true road to progress is to allow him his own eminent success in any life is to struggle to guard, and when make yourself master of that temper, and in society his tongue? — Mary Baker Eddy. The only time you mustn't fail is the last time you try. — Charlie Kettering. Stop in Friendly Farmington.
