

UNICEF Halloween Plan Helps Countless Needy

Wondering how and when the UNICEF Halloween-plan began? It was started in 1950 by the Rev. J. M. Allison of the Presbyterian Church, Philadelphia. He started by teaching his Sunday School class the fun of sharing Halloween with the sick and hungry of the world. Mrs. Edna J. Cope, President of the Farmington United Church Women's organization related. The idea spread rapidly throughout the nation to all denominations and groups. Just two years after the plan was started, \$32,000 was raised in pennies, nickels and dimes and given to the United Nations Children's Fund, United Nations, New York.

Five years later the amount given ran over half a million dollars.

As of last year over two million children participated and contributed over a million dollars.

Their money contributed goes far. Mrs. Cope emphasized. One penny provides for five large glasses of milk or enough vaccine to protect a child against tuberculosis. Five cents is enough for sufficient penicillin to cure a child of the dread tropical disease, yaws.

Each year through UNICEF, American children are helping to reach some of the 50 million children and their mothers aided through long range programs of nutrition, mass disease control and mother-child welfare. Self-help is the keynote of UNICEF aid. Assisted countries match every UNICEF dollar with an average of more than two dollars of their own. The volunteer organizations of "Trick or Treat for UNICEF" exist in 9500 communities. Women's Clubs, Sunday Schools of all denominations, neighborhood local churches and Y's all help the children help others. "When a child comes to your door with a UNICEF armband and a basket on October 31, remember that he is doing his share for the hungry children of the world and help him with your loose change," Mrs. Cope concluded.

The Staman Acres Association board meeting was held at the home of Alice Allen, 1000 Thompson St., in addition to the usual course of business much discussion about roads took place. All that is possible is being done toward blacktopping completion. If you have complaints or questions concerning roads, call Bob Williams, GR. 4-7450. Bob has been designated as coordinating representative between Staman Acres and the township.

Also, it seems as though dogs running loose are creating a nuisance in the subdivision. Please attempt to alleviate the situation or it will create an unfortunate rift between you and your neighbor.

It is now a member of the association and plan on going to the Halloween party Saturday night, please make reservations with Bev Ellis, GR. 4-0293.

Wendy Turner was home from Michigan State University last weekend. She attended the Farmington High School homecoming.

The little guests enjoyed playing games, eating ice cream and pick and white doll cake.

JUNE TAYLOR was hostess to her circle from the Presbyterian Church last week. They served "apple pizza" for refreshment.

Sunday evening the St. Anthony Guild met for luck supper was held at Judy Hanley's. The theme was Halloween, with pumpkins and corn stalks for decorations. Peter and Virginia Kloppe returned recently from Florida. They spent the entire trip in Miami at the Fortainebeau, an "out of this world place" where they report, Virginia spent her days on the beach while Peter attended to business, which was part of the trip.

Cancer pad pinning will be done at Judy Hanley's November 5th. White goods are needed desperately!

"It always happens to someone else" is something the Kearney family can no longer say. Sunday was such an exciting day for the Kearneys that they haven't yet recovered! As Mrs. Kearney left to attend a shower she suggested that her husband, Mr. Kearney, call her when it was announced they held the winning ticket for the automobile given away by Our Lady of Sorrows Shrine Club Raffle. She said it took a long time to get the ticket and yet had a strange feeling they would win. It's true that truth is stranger than fiction. After the homecoming football game the tension grew as the selection of tickets was made. Winning ticket holder was Mr. Kearney, son of Myles and Catherine Kearney! Mrs. Kearney received the predicted telephone call and couldn't get home fast enough to tell the good news. Kearney driveway is a black, 1959 2-door sedan. A check is made every so often just to be sure it really is up to high school standards.

A CHAIN IS AS STRONG AS—

How many times have you heard someone say: "A chain is as strong as its weakest link?"

On the subject of a community's attraction for industry it can be said as fairly that the community is as strong as its weakest link.

A town's pulling power with industry is made up of such links as . . . labor supply and skills . . . public facilities and services . . . schools . . . all-around livability . . . reputation for productivity . . . availability of financing . . . attitude toward new industry . . . treatment of present industry . . . what present industry says about the community . . . what people of the community say about each other.

Let us look for weak links and if we find one let's work together to forge a strong one in its place.
