### HAIR BEAUTY

The real beauty of any hair style depends on keeping the tresses clean and shining-bright. This means frequent shampooing and all the brushing you can give it. Dermatologists say that washing your hair daily won't harm it any more than daily washing harms your face. Models shampoo their hair every night to have it perfect for photographic "highlights." This isn't necessary for the average woman but anyone with only hair should certainly count on shampooing two or three times a week.

To bring out the real beauty in your hair it is necessary to keep regular beauty appointments. In this way you are in tune with the latest trends.

## Chaperones for Dances Sought

The Farmington Teen Topers are seeking additional chaperones to attend the dance which will be held at the American Legion Hall.

They would like to have at least 20 regular chaperones so that they could rotate duties with six or eight handling each dance. This would mean a team of chaperones would be on duty every third Friday night rather than having the same people shoulder the entire job at all times.
