January 17th Is Detroit Edison's Sixtieth Birthday

Ever since 1903... for all of the sixty years of our company's corporate life... people like those pictured here have enjoyed the responsibility of serving people like you.

You can find your Edison man (or, in one case, a woman) on this map near the place where you live. He is one of the managers of the 10 districts. And, of course, he's only one of many Edison men—and women—who serve you. Also essential are the linemen, the power plant and substation operators, the meter men, the appliance servicemen, the engineers, the builders and planners and clerks and record-keepers—each and every one of the 9,500 men and women of Detroit Edison.

Like the neighborhood people shown here, all of Edison's people throughout the communities of Southeastern Michigan are doing their best to help you to live better and better... electrically.
