Local postal workers now have the right to deal with the local postmaster on working conditions, personnel practices and in resolving interpretations under local agreements through local employee organizations.

At the same time they are forbidden to strike and discrimination is not allowed. Management's prerogatives which are not subject to negotiation include the budget, assignment of personnel, work technology and matters determining the Congress such as pay raises and the like.

This week Postmaster Henry Trombley is attending a two day employee-management conference in Chicago. The purpose of the conference is to brief postmasters on their responsibilities in negotiating labor-management agreements under provisions of Executive Order 10988.

Secretary of Labor Wirtz says the public will demand complete ratification of labor disputes unless unions and management devise better ways for settling their arguments.
