

ANNUAL REPORT FOR THE FARMINGTON PUBLIC SCHOOL DISTRICT

THE BOARD OF EDUCATION IS PROUD TO PRESENT A BRIEF GLIMPSE OF THE PROGRAM IN THE FARMINGTON PUBLIC SCHOOLS DURING THE PAST YEAR

FARMINGTON PUBLIC SCHOOLS

FARMINGTON, MICHIGAN

GERALD V. HARRISON, SUPERINTENDENT

Dear Citizens:

This annual report of the Farmington Public School District is prepared to give you an over-view of your schools. Since much attention is being directed on the national and state level to the importance of keeping every child in school as long as he can profit by his educational experiences, the illustrations in this report show some of the activities which help to improve our schools' holding power.

Farmington Schools have a thorough basic program in the fundamental skills: reading, writing, speaking and mathematics. Failure in any of the basic subjects often leads to the student's dropping out, and such failure usually begins with the student's inability to read and understand the written text. Your Board of Education has made every effort to provide well-qualified teachers, to supply the needed equipment and supplies, and to maintain reasonable class sizes. Our elementary teachers place the highest priority in helping each student to improve his reading skills; those children with reading problems are provided additional reading improvement services at the junior and senior high school levels.

Good libraries, music, art, industrial arts, home economics, business education and physical education all have their part in preparing our students for their future lives, and all have an important part in helping to keep students in school. Field trips, extracurricular activities, special interest groups supplement our program and aid in holding the interest of students.

The high quality educational program in Farmington has been made possible by your past support; your continued support is necessary to maintain this program.

Most sincerely,

Farmington Public Schools Board of Education
