Soda Lake in Africa.

In English East Africa is the richest bed of soda in the world. Engineers say that it contains 200,000,000 tons. The lake has a surface of most han fifty aquer silometers. During the rathy season, which in this locality is short, its surface is covered with a shallow layer of water. When a block of soda is laken out, another forms, and the natives say that this occurs so quickly that an equal amount of soda may be abstracted for a number of years from the same place.—Harper's Weekly.

Dayton Has Had Six Floods Dayton Nas Had Six Floods.
Dayton, O., has stood in the shadow
of disaster from lood ever since its
foundation. No less than six times
previous to the juresent inundation
have the rivers which flow through it
left their necusioned courses and
brought death and destruction of property upon the town. The first of these
floods occurred in 1805, the refy year
that Dayton was incorporated as a
town. The sixth was in 1898 and the
others in the years 1847, 1863, 1866
and 1886.
