## TO THE 1.185,000 FAMILIES SERVED BY

# DETROIT **EDISON**

The electric appliances you have in your homes are a part of your way of living. Some electrical uses are so important that it is hard to imagine being without them. Light bulbs, radios and refrigerators come quickly to mind as examples of what I mean.

Just a few years ago, television swept into our homes to add another enriching page to daily living. Edison was among the very first Detroit-area sponsors of a TV program because—firm believers in the merit of this new electrical device—we were eager to support and encourage this young struggling

To tell you factually about worthwhile, new electrical uses has always been, I feel, a responsibility. We are in a position to know about them more quickly and more thoroughly than most other people.

What of electric heat, one of the newest?

There is no finer home heating system. In degree of comfort achieved, in convenience, in adaptability to diverse living habits, electric heat is unexcelled. The family which enjoys electric heat receives full value for its cost.

As for the costs, last month we announced a new all-electric residential rate for those Edison customers who heat electrically and who use only electric appliances in their homes. The net result of the new rate is a lower average unit cost for electrical service for this particular kind of home. It is always pleasant to announce a decrease in cost of electric service, especially so when the saving is substantial, as in this case.

This lower rate is evidence of our desire to provide you with the best possible service at the lowest possible cost. This is our constant purpose.

Sincerely.

Walker L Cista

WALKER L. CISLER, PRESIDENT THE DETROIT EDISON COMPANY
