Clarenceville School News

By BILL HARRIS

The Clarenceville Trojans opened their 1963-64 basketball season last Friday, Nov. 29, with a 41-35 victory over defending co-champion West Bloomfield High.

Clarenceville will be going all out this season to improve on its poor showing of last year when it posted only twelve victories in 14 starts in the Midway Oakland League.

At halftime Clarenceville held only a slim 24-22 margin but put the game away in the third quarter by outscoring the West Bloomfield five-let.

Dave Graves sparked the Trojan attack with 18 points. Ray Rood added 12 points.

On Nov. 14 and 15 the Clarenceville All-School Play was presented. "Cheer up, Boy, the Dozen" attracted many to see it on the school stage through the prominence the story obtained from the book, and the movie made of it.

It was a heart-warming story of a man with 12 children and how he attempted to raise them by perfect timing and precision motion. He was an efficiency expert and felt that what was a good system for one child would work equally well for the others.

Two of Clarenceville High's most talented young ladies have been accepted to four foreign countries as part of a chorale group sponsored by the Council of Churches. Penny Kelbert and Jeanne Knowlton, both seniors, have been selected to tour Europe and South America, respectively, during the summer of 1964.

WHAT DID YOU PAY FOR ANTIBIOTICS 25 YEARS AGO?

25 years ago you couldn't buy antibiotics at any price. Neither could you get tranquilizers, steroids, radioisotopes, pain killers, nor a host of wonder drugs that are now commonplace.

That's why it isn't logical to say, "Prescriptions cost more than they used to." Most of today's drugs weren't available 25 years ago. In fact, over three quarters of the prescriptions written today, are for drugs that didn't exist ten years ago.

Today, Americans spend only one cent from every disposable dollar on drugs. This is no more than in 1939. Also, today's drugs work faster. They are more efficient. They do much to reduce your total cost of illness. That's why we say: Today's prescription is the biggest bargain in history.
