Masons Reveal Improving Plans For 'Town Hall'
Roy Line, president of the Farmington Masonic Temple Association, announced this week that plans had been approved last week by the Temple Association for renovation of the old Town Hall which the Masons purchased outright recently.
Advertisements for bids are being prepared and construction work is expected to be started almost immediately.
The first stage of the remodeling work will be on the lower level where kitchen facilities, a dining room with a seating capacity of approximately 300, dressing rooms, a check room, are planned. Work on the upper floor is scheduled to begin in June when all of the participating orders are recessed for summer vacations.
EXTERIOR repair work and landscaping improvements are planned but they will be no major changes in the outward appearance of the building, it was reported.
It was reported that fund raising projects would not be started until such time as work is under way and progress in the appearance of the old historic landmark is apparent. Officials disclosed, however, that some interested citizens and community groups, including the Quaker town Quakers, have already made contributions. Many other organizations have come forth with offers of assistance, it was added.

Safe Walkway
(Continued from Page 1A)
provide a suitable path to lay gravel on.
The citizens questioned that a gravel walkway would hold up, anyway, and indicated that they felt the school district should stand some if not all of the cost for a blacktop or concrete sidewalk. Board members said they felt they did not feel they would be justified in spending school district money for any sidewalks off school property.
Better lighting in front of East Junior High was also asked for by the citizens and the board said that it would see that could be done to provide this improvement as soon as possible.
THE BOARD and administrative staff agreed to put forth every effort possible to help the citizens get safer walking routes for their youngsters but made it clear that they felt many of the steps which were being asked for were outside the school district's jurisdiction.
The school board promised to have representatives present at a special traffic safety discussion meeting which has been set up for this coming Tuesday, March 3, by the township board. Officials of the Oakland County Road Commission and the Michigan State Police will meet with all interested citizens at 8 p.m. at the Dundee Junior High School to discuss local safety problems.
Riches are a good handout but the worst mistress.
—L. Korobik

Township OK's Plat
(Continued from Page 1A)
this point by indicating the board's final approval of the proposed subdivision would be subject to extensive review and the notion lot size required.
TOWNSHIP ATTORNEY Joseph T. Brennan had outlined the basis upon which the township was proceeding under the planned unit development zoning amendment at the outset of the discussion. Brennan pointed out that the only legal defense for justifying a minimum lot size requirement is through "density control" planning.
Density control or population control was explained prior to Brennan's presentation of the legal position of the township. Brennan stated that the township was proceeding under the plan of William Lehman, planning consultant engineers of Southfield.
Lehman stated that the basic concern of planners today is the number of persons who can inhabit an area without causing a drain on the services provided by the community. The array of schools, police and fire protection, and other services which spiral up in cost with the increase of population. Lehman pointed out that the population control measures are predetermined by the zoning board for each area of the township.
IN THE PROPOSED Old Franklin Towne development, a ratio of 1.8 dwelling units per acre has been set up as the density control factor. A total of 183 lots have been carved out in the subdivision's preliminary plat.
The corresponding reduction of the lot sizes allowed in the proposed Old Franklin Towne Subdivision under the planned unit development zoning means, a stage and other features which would permit the conversion of that section of the school into an auditorium to seat approximately 500.
THE ARCHITECT'S estimate was that it would cost about \$750,000 to construct the regular classroom addition and between \$80,000 to \$100,000 more if the section that could be converted from classrooms into an auditorium was developed on the board of education took no official action on the North Farmington High rough plans. Board members stated that they wanted time to review the matter thoroughly before giving a go ahead on further development of either one or the other of the plans. It was pointed out that the plan calling for a combination classroom-auditorium section would require approximately 3,000 additional square feet of space.
A decision for the architect on which plan to proceed on was promised for the next regular school board meeting on March 9.
Money for both of these additions will come from the \$5 million bond issue approved by voters in November of last year.

School Plans
(Continued from Page 1A)
addition was for the regular type of construction. The second, as requested by the board, was modified to include a five or six classroom section which would have a folding division walls, a stage and other features which would permit the conversion of that section of the school into an auditorium to seat approximately 500.
THE ARCHITECT'S estimate was that it would cost about \$750,000 to construct the regular classroom addition and between \$80,000 to \$100,000 more if the section that could be converted from classrooms into an auditorium was developed on the board of education took no official action on the North Farmington High rough plans. Board members stated that they wanted time to review the matter thoroughly before giving a go ahead on further development of either one or the other of the plans. It was pointed out that the plan calling for a combination classroom-auditorium section would require approximately 3,000 additional square feet of space.
A decision for the architect on which plan to proceed on was promised for the next regular school board meeting on March 9.
Money for both of these additions will come from the \$5 million bond issue approved by voters in November of last year.

Building Big Water Center
The Detroit Water Board announced this week that completion of its West Servin Center on Eight Mile Road in Southfield which will be completed in July will greatly improve water service to Farmington and other nearby communities.
The center consists of a 10-million gallon reservoir and a pumping station.
Gerard J. Stenus, general manager of the Detroit Water Department, stated that work will also be started in three or four weeks on a \$1,375,465 project to replace the water main on Inkster and 11 Mile roads.
The new pipeline will serve parts of Southfield and Farmington Township.
Hope is a good breakfast, but it is a bad supper.
—Haskell Nichols

Local Coed Injured In Crash Improves
Miss Linda McQueen, daughter of Mr. and Mrs. Forrest MacQueen of 22625 Highway 10 in Farmington, is reported this week to be "much improved" in St. Luke's Hospital, Saginaw, where she is recovering from serious injuries sustained in an automobile crash early Saturday morning, February 22, which claimed the lives of three young companions.
Miss MacQueen, a 19-year-old freshman at Farmington High School, was the only survivor of the crash.

GR. 4-3114
MARIE LONG

Mr. and Mrs. Paul R. Schreiber of Oakland Avenue in Farmington enjoyed happy news recently. Their son, Richard, and his wife, Judith, of 14015 Highway 10 in Farmington, are expected to arrive in their family on February 19 with the arrival of 8 lbs., 3 ozs. Sandra Kim. The new baby girl was welcomed by Mr. and Mrs. Schreiber and their three children, and their parents, Mr. and Mrs. Romeo LeMieux, Sr., who have been living in California since 1952. The Schreibers have purchased a lovely home at 2109 Shamwood Street in West Covina, Calif.
Mr. and Mrs. John Miner of Brookfield Avenue were happy to announce the birth of a new baby daughter, Kimberly Ann, born February 17, in St. Mary's Hospital, Saginaw, weighing 10 lbs. and 13 ozs.
THE NEW MINER baby was welcomed home by two sisters, Wendy and Christy, and a brother, Ricky. The young mother, Mrs. John Miner, is a graduate of Farmington High School, is doing fine. And so is the Daddy, who is happy to report.
Bruce Allen Hutchinson, son of Mr. and Mrs. George W. Hutchinson of Middlebelt Road, celebrated his ninth birthday on February 19. Bruce took treats to his classmates at the Farmington School, and enjoyed sharing his big day with them.
A family celebration was also held for Bruce at his home on Wednesday evening, Feb. 19. Bruce is a golfing enthusiast. His cake was decorated with an appropriate sports scene. His maternal grandparents, Mr. and Mrs. Harry Royer, and an uncle and aunt, Mr. and Mrs. Roy Larch, and a cousin, Mrs. John Dimaio, all of Farmington, attended Bruce's birthday party.
RICHARD REDSON of Springbrook Drive and two friends, Mr. and Mrs. Edward Roggenbach of Haynes Street, drove to Kentucky and Mississippi recently to take relatives on their return trip, an accident near Flat Rock hospitalized all three. Presently, I understand, all are convalescing and on their way home.
Richard received a severe cut on his head and a broken knee cap as well as a nasty eye injury from the accident.
Carl Hogle of Oakland Avenue has been confined the past

HOUSE SOLD
For just \$560 worth of inexpensive, a 1 1/2 story bungalow in the Farmington Enterprise. Five \$132 ad did the trick for Mrs. P. Weynsky of 27533 Bramwell.

BRICK RANCH, 2 fireplaces, 3 bedrooms, 3 baths, full basement, one acre hillside overlooking expressway, \$24,975. Owner, GR. 4-9010.
You can get the same results. Call GR. 4-6225.

Sewer Hearing
(Continued from Page 1A)
notification as required by law had been duly carried out in addition to notices published in the Farmington Enterprise.
One resident questioned the procedure of determining where the letters of notification should be sent. It was pointed out in the hearing that the law specifically requires the "owners of record" whose names and addresses appear on the township's tax rolls to be the ones to register registered letters. Tenants or renters and persons buying homes on land contracts are, therefore, not officially notified.
THE TOWNSHIP proceeds under Act 143 of the Michigan Public Acts, recently amended through the new Constitution, in establishing special assessment districts. It was pointed out by the board that the Regal Orchards sanitary sewer project had been thoroughly approved by the Oakland County Department of Public Works and the Michigan State Health Department as well as the township's firm of consulting engineers, and in the best judgment of these agencies was recommended to the board for approval.
A question as to the cost of the project to care property owners, which was detailed at the first public hearing staged February 10, was reviewed for the residents at Monday night's hearing. It was pointed out by Supervisor Hall that bids on the construction of the sanitary sewers would have to be received from the contractors before an exact figure could be established.
SUPERVISOR HALL emphasized that should construction bids come in over 10 per cent of the cost estimator made by the engineers, the project would automatically be suspended and the entire proceedings would have to be repeated.
