ELECTRIC HEAT HELPS KEEP YOUR WHOLE HOUSE CLEANER!

Customers say with electric heat, you won't have to dust under beds, wash walls or clean draperies nearly as often. Why? Electric heat is flameless. Dust-laden outside air, in the quantities necessary to support a fire, is not drawn into your home. And because it is flameless, there's no soot. No fumes.

You get more out of life electrically. And Edison's new low All-Electric Living Rate gives you more reason than ever to consider electric heat. Before you buy, build or modernize, talk to an Electric Heating Contractor or Edison about electric heat.
