Farmington Players to Stage 'The Warrior's Husband' Comedy

The Farmington Players will present "The Warrior's Husband" as their Spring Production, May 1, 2, 8, 9 and 10, in the Players' Barn located on 12 Mile Road, Farmington. The Warriors' Husband, written by Julien Thompson, a comedy in three acts, was first seen on Broadway in the year 1932. The play takes place in the Amazon where the Amazon women rule and man is submissive. Queen Hippolyta wears the girdle of Diana, given to her by her mother, as long as she wears this girdle woman is powerful. MR. THOMPSON adds a bit of trickery to his story by sending the Greeks to the land of the Amazons, to obtain the Girdle of Diana. Theseus and Hercules lead their Warriors to the forbidden land of the Amazons. This journey is known as Hercules' Ninth Labor. "The Warriors Husband" is filled with laughs from the time the curtain rises till it closes, for the whole family. In the role of Hippolyta, Queen of the Amazons, is Joan Stone. Her sister, Princess Anope, will be portrayed by Joan Salisbury. The comic, masterly made lead, is being played by Jim Blovitis and Hercules, half God and half human, will be done by Don Craig. SUPPORTING ROLES are being portrayed by Stewart Orman as Sapiens, husband to Hippolyta, Hope Nahsolt as Pomposia, Robert Shaw as Queen's most trusted Councilor. Completing the cast are Marilyn Smallegan, Kathryn Kornmeier, Melinda Shulkins, Wally Ann Perry, Cecile Orman, Bonnie Goeman, Carol Griffin, Natty, Harrower, Bud Stone, Dennis Broadhead, Hugh Schu, and Robert Shaw. Staging for "The Warriors Husband," Jim Blovitis, Ron Jackson as production manager, and Richard George Pedicino as director.

Approve Maint. Building Plan

At a special session April 7, the Farmington Board of Education approved preliminary plans for a new school district maintenance building to be constructed with funds from the \$5 million bond issue approved by voters in late 1963. The board instructed architect J. MacDonald Jacobs to proceed with final plans and specifications for the building and simple, garage-type construction which will be located on a part of the Middlebelt School site extending out onto Ten Mile Road just east of Middlebelt Road. The building will be approximately 60 x 100 feet in size. It is expected that the building will be able to be completed by September or October since there will be no complex construction details which will require extra building time. To profit from good advice requires more wisdom than to give it. —A. Dickson
