#### Traffic Light Need Study Is Nearly Finished

City Manager John Dinan re-ported to the council at its reg-tions easien Monday night that the public safety department had nearly completed its de-tailed study to determine what would be needed to provide a signal light and other traffic safety controls on Farmington Road at Alta Loma and for Or-chard 'St. a short distance to the north. He also indicated to council-

that is, it is short with the north.

He also indicated to councilmen that the state highway, department had been showing more interest in the city's concern regarding the need for a traffic light on Grand River Avenue at Power Road, Public Safety Director Maurice Foltz told the council that state highway department officials had picked up both accident reports and traffic count figures for this closation from him that same day.

be.

Dinan stated that a diagram
designating cross-walks, traffic
stop bars and a type of signal
light arrangement as well as
cost figures on how much various types of lights would cost
would all be a part of the report

would all be a part of the re-port.

He also expressed hope that some additional information from the state highway department on the city's proposal for a light on Grand River at Power Road might be available by the Sept. 14 meeting.
