I'm proud of my town for doing something about the needs of unemployed teen-agers.

The project was launched by the Livonia Commission on Children and Youth. It developed into a program with a full-time paid director and four part-time assistants in the Youth Employment Service.

Nearly 8,000 jobs—from one-time lawn mowings or baby-sitting jobs to full-time, permanent positions in industry—have been provided. The response from the teen-agers themselves was notable. Nearly 2,700 registered for full-time or part-time employment.

And all this in only 18 months!

Members of the commission are: Murray F. King, chairman; James A. Lamb, Rodney C. Linton, Helen A. Taddeno, the Rev. Jay Clinton, Louis J. Schmidt, and Benton Yates. The work is supported by the municipal government, headed by Mayor H. W. Moelke.

### Volunteers Needed!

A plea for volunteer workers to staff the Livonia branch office of the Michigan Cancer Foundation has been received from Mrs. Peter LaZar, office manager.

The office is located in the old Newburgh School building at Newburgh and Ann Arbor roads. At present it is open on Monday and Tuesday afternoons from 1 to 4 p.m. Mrs. LaZar would like to have more women to extend the office hours.

Workers are needed to staff the office to hand out cancer dressings and supplies to cancer patients and their families and to answer questions from telephone callers.

They also are needed to cut cellulose, which is used in the preparation of cancer pads by sewing groups in the area.

Women of all ages who can spare a few hours a week for this type of service may call Mrs. LaZar at GA 2-6882.

When you see the compact new KODAK INSTAMATIC 500 Camera in its new pouch-like immediately think of traveling with it. And I can't think of a better traveling companion than this camera.

In case you don't know much about KODAK INSTAMATIC Cameras, they represent a new idea in picture-taking that has literally started millions of people taking more pictures, better and more easily, than ever before. Even people owning expensive photographic equipment have seen that it also makes sense to own and use a KODAK INSTAMATIC Camera. The "500" is a unique INSTAMATIC Camera. In addition to the instant loading and instant readiness characteristic of this type of camera, it has an ultra-fast lens that lets you focus right down to 2 1/2 feet. The special COMPUR shutter can stop action down to 1/500th of a second. The electric-eye control not only gives you automatic control of exposure but it also provides for manual modification of a full stop up or down. The lens barrel retracts when the camera isn't in use so that it can be carried in purses or pockets and not take up much more room than a couple of packs of cigarettes. The pouch case of soft, black simulated leather closes with a zipper along two sides for easy handling.

There's so much more to be said about this camera that it takes a personal demonstration. Why not come in and see for yourself?
