Good Lawn Is Goal Of All Homeowners

result in a lawn which the neighbors view with envy. Seed-ig is a long-term project requir-ing much patience and skill.

ig is a long-term project requiring much patience and skill.

Sodding is much like laying
an outdoor wall-to-wall carpet and it can transform a
barren lot to a grassy mat in
a matter of bours. Sod can
be laid at any time during
the growing season up to a
mouth. Lawns should be
seeded in late summer or
early fall.

Although generally more expensive than seeding, sod has
become increasingly popular in
recent years. It is especially
useful for replacing small spots
damaged by heavy traffic
amaged by heavy traffic
most proof of grass,
thickly matted, free from
weeds and a good healthy
condition. When replacing
poor turf, the old grass should
be plowed or roto-titled to
add organic material to the
soil.

The surface should then be
soil.

On the lawn

On Madison Avenue they will toll you that anything that can be said about a 50c cigar has a figure of the was reminded of this when checking over the gracer horizontal to the was reminded of this when checking over the was reminded of this when checking over the was reminded of this when checking over the was reminded of their gracer to the metally perform the miracles that have the company of the miracles that have a new combination product that the provide service of the company of the company

nd other rosette-type weeds, tent including heal-all, lambsquarters etc.

Third, it controls those pesky vining weeds like chickweed, ground in yan the like. Fourth, is clears out grubs, anis, beetle larvae and their discourages the motes. Third interests you, better that harborness togredient. The late is to get this down before the crab grass seeds have in particularly to the production. If you use Turf Builder Plus 4 this spring, postpone any seeding until late summer.

A good lawn is the ultimate goal of most home owners and shas become a suburban symbol. Either seeding or sodding can Either seeding or sodding can lawn which the matched and packed by rolling and watering watering

matched and packed by rolling and watering.

Bluegrass is the most widegly used grass for sod. Recommended varieties include Kentucky, Merion and Newport.

Both Merion and Newport are
considered high-quality turn,
but are slightly more expensive and require heavier applications
of fertilizer.

Lawn, Rose Booklet Solves Most Problems

Most Problems

A new 24-page full color booklet will be of inderest to readers seeking answers to common
lawn and garden problems.

The booklet gives information
no lawn and garden crace. It's
filled with facts on feeding,
seeding, watering, moving, and
protection against insects and
trought of the most
flowers, and evergreen care.
Included in the booklet are
