**Deafness Cannot Be Cured**—by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, it is like a rubber tube plugged with cotton, and the sound waves cannot enter the ear. It is entirely cured by the use of the "Foley's Kidney Pills," which restore the tube to its normal condition. Hearing will be restored forever; also deafness out of ten are caused by Catarrh of the Eustachian Tube, which is nothing but an inflamed condition of the mucous surface. ## UNDERSTOOD ART OF DINING

Gourmet Paid for His Elaborate Dinner, Though at That Time He Didn't Know It.

That skill in the art of choosing a dinner can stand one in good stead was experienced the other day by a gentleman in Liverpool, Eng. It appears that a millionaire from the United States walked into one of the leading hotels in the city and said to the manager: "Tomorrow I want the best dinner that your establishment can produce. I want to show to some friends what England can do in the way of a dinner."

The manager was at a loss to know what to do, but remembering the man who made the art of dining a hobby, he sought him out and said, "Our company will esteem it an honor and a pleasure if you will dine tomorrow at their expense. We will select your own dinner, and all they ask of you is that you will choose the best menu that your experience dictates, regardless of expense."

The gentleman in question accepted the invitation, and next day gave his order for the dinner. It was served to him in the dining-room, and the same dinner was served in the private room to the millionaire and his friends. The latter unanimously confessed that they never had realized to what a pitch of perfection the art of dining could be brought in any English hotel.

## MAKING A RAISE.

"Doctor, I want to become so I can raise a great weight. Can you get me that way?"  
"Guess so; but your physique is rather slight at present."  
"I know it is. I thought maybe I could raise a little at first, and work up."  
"Yes; we'll have to go at it gradually; take a long course of treatment."  
"All right, doctor. What shall I raise to start with?"  
"Better raise \$200, I guess."

## SURE SIGN.

One day a teacher was having a first grade class in physiology. She asked them if they knew that there was a burning fire in the body all the time. One little girl spoke up and said:

## TOO EASILY ABRIDGED.

"You want your name changed, do you? What is your objection to 'Blackwell Arnold Moore'?"  
"Your honor, about half the letters I get come addressed to 'Blackwell Arnold'—and I'm as white as a man as your honor is!"

## BETTER FOR THEM.

"Some of these convicts, Mr. Warden, have a very smooth manner."  
"That's all the better for them, for if they're not smooth, we iron them."

## BURIAL PLACE OF COLUMBUS

Santo Domingo Declares Great Discoverer's Ashes Lie in Their Country.

Santo Domingo expects that it will get a share in the great international commerce that will move through the Panama canal, writes William Joseph Showalter in the National Magazine. Not only will it afford a great highway for its exports and imports, but it will also constitute an important port of call for many kinds of ships.

Here one may see the house of Columbus, and if the conclusions of the priests of Santo Domingo are to be believed, his brother and his son were interred in the cathedral. In after years it was decided to remove the ashes of the discoverer to Havana.

When the Spaniards were fighting in the Spanish-American war they took the bones at Havana back to Spain and interred them there. It is claimed that it has since been demonstrated that those are the bones of his brother.

The Santo Domingans afterwards opened up a leaden casket and in it found the inscription, "Cristobal Colon, first admiral." Other evidence substantiates the claim and was strong enough to convince Secretary Knox that the Dominicans actually possess the real bones of Columbus.

"When I was on the stage I occasionally received some that had a very bad effect upon me."

## QUESTION OF CHARACTER.

The best farmers in the United States started with less than \$1,000—in most cases with less than \$20. They were the Irish and German immigrants who went straight from the ship to work as hired men on farms. One of the \$15 or \$20 a month they saved in addition to their board they saved enough to buy a few acres of land. Is the city man of the present generation too weak in fiber, too infirm of purpose, too lacking in endurance and initiative for this process?—Collier's Weekly.

## WORM TURNS.

Mrs. Gnaggs—You miserable worm! Out of my way! You're always kicking because I want to get out somewhere!  
Mr. Gnaggs—Now look here—Mrs. Gnaggs—Not a word from you, now! Come here and hook up my dress!  
Mr. Gnaggs—Now, look here, Jennie, if you mean to imply I'm a hookworm I'm darned if I stand it.—St. Louis Republic.

## LAST RETORT.

"Pa, what is meant by an 'emergency diet'?"  
"That depends on where you are, my son. In the polar regions dog meat is an emergency diet. In the average town, it's pork and beans."

## IN ART CIRCLES.

Dauber—Why, yes, he has a hungry look, now I come to think of it.

## ITS STATUS.

"I am astonished to find such rude, persistent lawyers here."  
"Why, especially here?"  
"Because it is a civil court."

## HER METHOD.

"So his new wife storms a great deal."  
"Yes; that is the way she manages to reign in the family."

## EASILY CLASSED.

"What do you think, girls? Miss Oldgirl is engaged."

## BETTER HORSES FAIR'S SLOGAN

Larger Incentives Offered in Light Stallion Classes.

## CAVALRY HORSES TO SHOW

Manager Dickinson Says Michigan Breeders Can Reap Rewards From War Department—Military Jumpers to Perform.

By offering much bigger incentives for the breeding of horses suitable for service in the United States army the Michigan State Fair believes it is accomplishing a double purpose.

Through breeding mounts up to the United States army requirements the farmers are enabled to get bigger prices for them and at the same time elevate the standard of Michigan bred animals.

The dearth of the proper kind of animals for army service has been a problem the war department has been up against for the last few years and with against the prospect of a comprehensive solution. The farmers all over the state of Michigan have taken largely to the breeding of heavy draft horses for service has naturally cut down the supply to an alarming extent. It has come to assist the former in breeding in order to increase the number of desirable animals. The same sort of mount under the saddle horse and light harness class, as that any encouragement of the style of horse will not necessarily mean but one market for the distribution of the improved products.

General Manager Dickinson of the State Fair is asking the war department to send a troop of typical cavalry horses to the 1913 Fair so that the breeders may become familiar with the style desired. A good war charger must be a fine jumper and so one of the special light features of this year's Fair will be the vaulting in the military class.

"We know that Michigan farmers can supply part of the demand of the government for cavalry animals as well as the western states do," said General Manager Dickinson. "It means bigger profits as well as carrying out the patriotic side of the question. Government experts assure us that they are highly pleased with our idea to encourage the breeding of horses fit for army purposes."

## DUTY OF PARENTS.

Summarizing the parents' duties, a writer in the Mothers' Magazine says:  
"To that child they owe the daily revelation of the best of their natures. The child must see that unfaithfulness to its own, to the stranger, to the state and to God is the real working purpose of life, and that love is the handmaid of loyalty. Then shall constancy unfold within its heart, open with the underlying fragrance of the roses of unyielding faith in all that is true."

## SOME HEAT.

"I hev come to tell yez, Mrs. Malone, that yer husband met with an accident."  
"An' what is it, now?" wailed Mrs. Malone.  
"He is overcome by the heat, mum."  
"Overcome by the heat, was he? An' how did it happen?"  
"He fell into the furnace at the foundry, mum."—Tit-Bits.

## VERY SIMPLE.

"What is your theory about the increased price of living?"  
"I think it is because things cost more."

## VARIOUS VARIETIES.

"There's a wayfarer at the back door. Shall I unchain the dog?"  
"Not too hasty. Is it a tramp, a boy scout or a hiking suffragette?"

## INFERENCE.

"The native tribes that missionary went out to were so glad to see him they fairly ate him up."  
"Why, were they cannibals?"

## PRACTICAL SENTIMENT.
