GREETINGS!

In just about 60 days the postman is going to be granting under bundles of Christmas mail. A lot of it will be greeting cards. If you do things in your family that they do in mine, you'll be putting your cards on display... topped to walls or mirrors or stuck up some way so everyone can enjoy them.

Pretty as they are, though, very few of them stand out and even fewer of them have the quality of uniqueness that really sets them apart. The few that do classify as "unique" will be photo greetings.

So... if you want your Christmas greetings to be different from all others, why not plan this year to send photo greetings... made from a snapshot you took yourself? your children, your home, your vacation. Almost any subject is appropriate there it evokes shared memories and pleasure.

Why not look through your file of snapshots? Perhaps you shot a few rolls of color film last Christmas or of wintertime activities. Just any of these would fit the occasion. And if they don't, there's still plenty of time to set up some shots, using simple props to suggest the holiday season.

If you're at a loss for ideas, drop in and look over some of the designs and literature we have on the subject. We'll help you come up with something you like. And we'll make the cards for you. Try us!
