

Grinnell's Has 'Everything in Realm of Music' Available

"Everything in the realm of music" is the motto of Grinnell's, the nation's largest and one of the oldest music retailers, and the Livonia Mall store isn't any exception. Qualified instructors are available for every instrument the store sells and there is a huge variety of radios, phonographs, television and hi-fi sets on hand. These lines represent the top manufacturers of such as Steinway pianos, Hammond organs, Magnavox stereo and television

sets and Conn hand instruments among others. The store also handles the popular Gibson guitars. Inasmuch as it is Christmas-time at the Livonia Mall, it

is also the yule season at Grinnell's and if you're interested in getting one of the above gifts for Mom, Pop, daughter or son, just drop into the Livonia Mall, visit Grinnell's and ask a salesperson and skilled sales person will be glad to offer suggestions.

Grinnell's is celebrating its 86th anniversary this year and now lists 36 stores in Michigan and Ohio, five subsidiary stores in Kentucky and New York state and the Grinnell piano factory in Holly, Mich. In addition to being the world's largest distributor of pianos, Grinnell's has been one of the world's leading manufacturers since 1902. The first factory was located at Cass and Jones Streets in Detroit. A larger, more complete factory was purchased at Holly and has been producing since 1912. Grinnell's furnishes all the pianos, organs, rehearsal space and financial support for the annual Michigan Music Festival. The 22nd version was held in Cobo Hall last June. The Grinnell stores encourage home and family music making by providing studios with qualified teachers for beginner's lessons and auditoriums for recitals to stimulate practice and demonstrate progress.

In addition, instrumental music students in public schools have been aided the past few years by more liberal financing assistance.

More than 3,000 leading schools, colleges and public institutions have chosen Grinnell's pianos. Many pianos sold to the University of Michigan in 1908 are still in use after 57 years.
