County Representation By Population Sought

Farmington Democratic Club Chairman Aldo Vagnozzi has asked to appear before a legislative committee to argue for an end to the short-changing of Farmington Township representation on the Oakland County Board of Supervisors. Vagnozzi has requested an opportunity to appear before the House Apportionment Committee which is holding a series of hearings on legislation which would revamp the county boards of supervisors to base their representation on population. THE PRESENT system limits a township's representation on the county board to a single supervisor regardless of the number of people who live in that township. Thus, Farm-

ington Township, with more than 20,000 people according to the 1960 census, is limited to the same single representative as is the county's smallest township with fewer than 2,000 people. "Farmington Township has grown in population since 1960 which means that our voice on the county level is further diluted in comparison to areas which have not experienced similar growth," Vagnozzi said. VAGNOZZI RECALLED that he had made the fight for equal representation one of his main campaign goals when he ran for Farmington Township Supervisor last Fall. At that time, Vagnozzi pointed out

that Farmington Township would have a better chance to get improved county services if it had the representation it was entitled to on the county board. "Vagnozzi said that although he wasn't elected he had an obligation to continue to fight for the principle of equal representation which is vital to Farmington Township's future growth. Vagnozzi said he would welcome the support of the present Republican Township administration in this fight and would be glad to join forces to press for legislation which would bring equality to Farmington Township voters. The hearings, which began last week, are being conducted by Representative Marvin L. Stempien, Livonia Democrat.
