Kenneth Myer and son Ed have spent the past couple of weekends hunting at Houghton Lake. Kenneth has hunted there for some 20 years and so loves that country he has bought property there. But they didn't even get a shot at a deer this year!

Ed celebrated his birthday on the 20th and got a red Mustang for his birthday gift. How our young boys love that snappy car!

Ed and Wilma Carden left here last week Monday and made a leisurely trip to Alabama to have Thanksgiving with members of Ed's family. They spent two nights on the drive each way stopping with a brother of Ed's in Nashville, Tenn. on the way down. Ed's mother and sisters and their families still live in Reform, which is near Tusculoo. They reached home Sunday night.

Pam Busch was at home for the Thanksgiving holiday and hopes to be here for the Christmas holidays before her new Peace Corps assignment takes her to Peru.

Marian and Conrad Lam got back late last Wednesday from their trip to see Marj in Peru. I'll have the story of their trip for next week since, with the holidays, Marian didn't have time to gather the information together before this had to go to press. Janet, of course, was home from DePue, Ill. in Greencastle, Ind., and Dick had a guest for the long weekend who is now a sophomore at Duke.

Dick and Scottie Weedman are back from a combination business and pleasure trip. They call Elsie Sevaks at 626-3836. We want EVERYONE to be there.

Understanding your HEALTH
By Albert E. Heustis, M.D. Director
Michigan Department of Public Health

With the start of the hunting season, many once-a-year Dan Boones are heading to a vigorous life in the woods. Unfortunately, they are carrying a layer of fat that may endanger their health.

You know what I mean, if you're married to an over-weight and over-dirty husband, make sure he's had a recent physical examination before leaving into a rugged search for deer.

I know you've heard a lot about the danger of hunting accidents — and it is true — but heart attacks are three times as frequent among hunters as accidental gunshot wounds.

A heart attack not only can be the result of over-exertion during the hunt, but a combination of too little sleep, too much rich food, strong drink, chain smoking, and the excitement of the turn of a card.
