Although the luncheon held by the Detroit Edison Co., was to honor the Queen of the Kitchen, every one of the guests were made to feel like queens too.

Faith Gillispie and I attended the luncheon and passed by the immaculate test kitchen where the contestants were concentrating on their entries and entered the auditorium of the Detroit Edison Co. to find it beautifully decorated in the St. Patrick's Day theme.

Pretty, blonde Peg Furlong, Detroit Edison's top notch press gal, showed us to our places at the tables which were centered in fresh flowers. The avocado and grapefruit salad had been tinted green (no, we did not eat the contest entries for lunch) and we had St. Patrick's creme de mint parfaits for dessert. All of the working women and the contestants had shamrock corsages.

A gasp of envy went up from the audience when the winner went up to select her prize from among the elegant ranges. These are all self-cleaning now—what a boon to save time and your skin. Afterwards we viewed all the entries—frankly they all smelled heavenly and looked delicious to us—and the judges admitted it had been a hard, hard job to pick the winners.

Is there anything more exciting than interesting mail? Last week we entered the office to find several gals around our desk saying, "Open it, Open it, see what it is." The object was a gaily wrapped round container. When we opened it, it was a pink can, filled with rose colored tissue containing pretty sachet bags demonstrating Bon Ton Gift Shoppe's new Gift Can containers. We couldn't help but think what a marvelous way to send perfume, or jewelry, or anything breakable for that matter. Besides, you can save the dainty container (it's on our desk for pencils).

Myra Chandler, looking sassy as a spring robin in a navy outfit with matching cloche and pins of white and navy polka dots breezed in from a luncheon where Helen Gurley Brown had been the speaker. "What did she say?" we asked. "Well," said Myra, she stated that the smaller the bust, the greater the intellect!"

Seldom do we allow ourselves the luxury of a catchy remark in print, but we can't help but feel that Madame Gurley whose side profile is about as curvy as that of an Indian brave handed herself a bit of a bouquet on that one!

Super Way to Super 8

The fun way to get a first and lasting taste of the new Super 8 movies everyone talks about is to buy one of the new KODAK INSTAMATIC Movie Camera and Projector. For a \$399 over a hundred dollars, you are "in business". And it's astonishing what you get for your money. The KODAK INSTAMATIC #2 Movie Camera has a lens that lets you shoot good pictures even in dim light. It takes movies with a 50% larger picture area on the film than regular 8mm, which means your movies are brighter and sharper on the screen. The new drop-in cartridge holds 50 feet of film, and you can shoot the whole roll without flipping of mid-point. Loading the camera is as easy as putting a nickel in a parking meter, and it's impossible to load incorrectly.

The KODAK INSTAMATIC M50 Movie Projector has a lot to offer. Automatic threading and power rewind. A 200-foot reel that gives you 15 minutes of power. Full enjoyment of home movies with the greatest of ease. It's the simplest home movie outfit you can buy... for taking movies and for showing them.

Why not drop in at the store soon and let me show you how much more enjoyment you can get from home movies with this new movie system: new cameras, new film, new projects. You'll find them hard to resist.
