Did The Easter Bunny Flip His Basket At This House?

Neighbors eyes popped and lines burred as one alert news-hound stated that there were millions of colored Easter eggs just laying all over the front lawn of Jerry and Dorothy Wilhelm's home at 29710 Kirtland Drive in the Kendallwood Subdivision, Farmington Township.

Jerry and Dorothy Wilhelm do not have a million, but do have over a thousand gaily decorated Easter eggs which they place in their front lawn every Easter and leave them there for

a day or so after Easter. The idea came to the Wilhelm's about five years ago, while still residing in Cleveland, O. During the lull between Christmas and Easter, their youngsters Karen 11, Tom 9, and Janet 6, begin work on this project.

About two thirds of the egg shell is used, with a plaster of paris fill. A large nail is inserted at the bottom, then the eggs are painted with household enamel paint. About 500 a year are added to the collection. After Easter, the eggs are taken in and stored.

The Wilhelm's were quite pleased that there was interest in their project and consented to leaving the eggs in the lawn until Friday night.
