

### A Tiled Terrace Cuts Lawn Mowing Duties

For the homeowner who needs a clincher in her campaign for a new terrace, save this for the finale: every square foot of paved terrace means a square foot less lawn to mow.

A spacious terrace of weather-proof, easily maintained cream-colored mosaic or quarry tile means that the family lawn maintenance can spend more time at ease in the shade.

### Newlyweds Select Homes That Can Be Expanded

With 51 per cent of young women marrying before they are 20, newlyweds must decide at an early age how they want to live. The living room often has doors and built-in units to match the walls. The family room can be designed for easy conversion into a guest room with its attractively covered double bed quickly made into a double bed for friends who stay overnight.

Even if the kitchen is small, careful planning can provide ample storage in wall and floor cabinets. Perforated panels are used in kitchen, laundry and workshop for hanging utensils and tools. Precious time is not taken up in keeping the kitchen floor clean, as the use of solid vinyl tile, such as Kentile's Colonial Brick, steadily gains popularity.

Resilient tile in various colors and design adds beauty to floors and walls throughout the entire house, saving time and work, they find.

Gaining in popularity is the use of built-in banquettes arranged around three sides of a table in a dining alcove. Space beneath the banquettes affords more room for storage. Young marrieds are delighted in the practicality of built-in furniture and storage walls in every room—the master bedroom, study and lavatory.

Space beneath stairs now is being used for storage, either as a closet or a series of drawers, one to each step.

### Create Own Layout With Home Divider

If hunting for a house or apartment has you frazzled because you can't find one with a good room layout, don't be discouraged.

Room dividers may solve the problem perfectly.

Walls can be "shortened" or "lengthened," jutting columns concealed, and windows beautified by new see-through dividers that you can put up with just a screwdriver.

Dividers in effect let you create your own layout.

Ideal for those who move often and, therefore, must rent living quarters, this type of easy-to-assemble "wall" is a practical long-range investment.

"Screw-on" panels are supported by floor-to-ceiling tension poles in a choice of traditional or modern designs and in several finishes.

### Flowering Crabapple Fine For Ornamental

By Wayne Jones

The flowering crabapples are the largest group of ornamental flowering and fruiting trees found in Michigan. The flowers may be single, semi-double or double pedicel.

The flower color may be white, pink to reddish purple in many different shades. The leaves may be green, gray, bronze or reddish purple and some of the newest are as red as the plum trees which are so popular.

The leaves vary from variety to variety to as many as eight different shapes. The fruit may be any size and any color except blue or black. The tree may grow to 20 feet or more in height and a new variety just being patented is only 20 inches tall after 14 years. The tree may have a standard shape or be shrub-like or pendulous branches or columnar in habit.

To select the right variety for any landscape requires considerable experience. Unfortunately most of the commonly known varieties such as Hopsa, Eleyi, and Almey are susceptible to scab, a fungus causing a blight on the foliage and the fruit.

These varieties also tend to bear flowers very lightly every other year. At the same time it is difficult to select a crabapple that has all the best qualities. I am going to list a number of the better varieties. Many may not be found locally and many others can not be listed because of space.

Vigorous varieties: Atrosanguinea, Floribunda, Micromalus.

Slower growing varieties: Dolgo, Hupehensis, Parkman, Zumi Calocarpa.

Dwarf varieties: Sargent, Sargent, Rosea.

Newer varieties: Beverly, Bob White, Demoline, Lisc, Morden 457, Marshall Oyama, Mary Potter, Pink Beauty, Radiant, Tursat, Van Eschling.

All of these listed varieties are scab resistant and are considered the better ones. Some would have to be ordered a year in advance because they are new.

### Small Fires Smothered By Blankets

Every 24 hours about 1,500 homes will be damaged or destroyed by fire.

Like auto accidents, many home fires could be prevented with the proper care.

However, practical means are often not readily available to put out small accidental fires, such as those originating in waste baskets, on kitchen ranges and in basement workshops.

Filling a void between a bulky chemical extinguisher and a bucket of sand is a fire smotherer blanket of pure asbestos fabric.

The non-woven fabric is made from a long fiber asbestos mined in Africa by North American Asbestos Corp.

The fire smother blanket is distributed by Midland Trading Co., Chicago.

While most fires originate in the bedroom and living room, a sizable number develop from carelessness with pots and pans, open fireplaces, outdoor barbecues and oily rags.

Because a non-woven asbestos blanket is incombustible, it is a useful safety item for smothering small fires.

### NICKEL CONSUMPTION

World consumption of the versatile metal nickel has doubled on the average, every 14 years since the turn of this century.

### let us build this vacation home for you now... to enjoy this summer (and all year!)

By ordering now, we can guarantee that you'll be enjoying outdoor living in your own vacation home this very summer. Our new manufacturing plants can now supply our expert building crews with all the materials they need right away. This means the crew can begin your vacation home or lodge whenever you say.

Your satisfaction goes far beyond completion day, however. To assure your complete satisfaction, all Viceroy Homes are made from:

- 1 Solid British Columbia Red Cedar, insect proof, moth proof, rot proof. Cedar wears like iron and takes a beautiful varnish or stain.
- 2 Hurricane-proof Johns-Manville Sealmatic shingles for a smooth, lifetime roof, will not lift or flap during the most severe storms.
- 3 World famous Rusco steel windows, wind and water tight and impervious to extremes of heat and cold. Weather stripped for year round use. No sticky window problems here!
- 4 Name brand materials only are used in Viceroy vacation homes. Nationally known brands like Johns-Manville, Pittsburgh Plate.

Glass, Lloyd Doors, and Rusco Windows are your guarantee of outstanding quality. There are 52 models to choose from, starting as low as \$2561. Remember, ours is a Built Price on your foundation! If you prefer to erect yourself, the price is even less. Join the swing to Viceroy—you'll be glad you did!

Shown above is our Voy-ageur, 3 bedroom leisure home with large Panoramic window and spacious living room. We'll build it on your foundation for only \$4201

We Also Build in Canada (Save in Canadian Funds)
