

# Adults Take Advantage Of Night College Courses

During the past year Schoolcraft College enrolled 895 students in its Evening Program during the first semester and 743 the second semester. A large number of these were adults who were employed during the day. Some were students taking part of their work in the day and part during the evening.

## Westland To Offer Visual Tests

Free visual and reaction time tests will be offered at Westland Shopping Center during the week of June 13 through 18. The tests will be given courtesy of the YMCA and YWCA driving schools. Tests will be given on brake reaction time, visual acuity, depth perception, color vision, night vision, field of vision, and steadiness.

Free literature on driving skills will also be available through courtesy of Ford Motor Co., Allstate Insurance, Automobile Club of Michigan, and the Greater Detroit Safety Council.

Displays will be exhibited by the American Red Cross and Michigan Cancer Foundation. The Safety Mobile, a 42-foot trailer, will be located at Entrance 2 off Wayne Rd. and will be open during the regular show hours during the week of its display.

## Trains in California

Marine Lance Corporal Thomas E. Campau, son of Mr. and Mrs. George E. Campau, 8832 Berwick, Livonia, has completed a 12-day training and processing cycle with Staging Battalion at the Marine Corps Base, Camp Pendleton, Calif.

Particularly popular were courses in accounting, business, secretarial studies, science, mathematics, English, speech, history, government, and the technical area.

Many housewives enrolled with the idea of completing two years at Schoolcraft and finishing their degrees at some nearby senior college. Others came for upgrading on the job. Some came to learn special skills. There were a number of evenings in which there was not a vacant room in the College from 7 until 10 at night.

There were, for example, during the first semester, 23 night classes of English, with approximately 400 students enrolled in English Composition, Advanced Composition, Children's Literature, English Prose and Poetry, and American Literature.

Courses in all types of secretarial work drew substantial numbers as did technical, architectural, and engineering drawing. Twelve different collegiate courses in mathematics were offered. Evening College students showed interest in government, philosophy, sociology, and speech.

The art studios were used almost to capacity, as were the facilities available for electronics, basic machine shop, metallurgy, and welding.

The College Evening Club had an enrollment of 60, under the direction of Wayne Busby, with many adults from the entire area enrolling for this opportunity. The science laboratory, biology, chemistry, and physics were utilized almost to capacity.

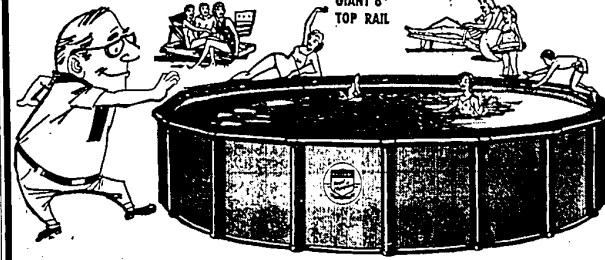

With an increasing number of applications for enrollment for the Evening Program, those interested in attending Schoolcraft are urged to make application as soon as possible.

The day and evening programs are similar in their offerings. Those interested may arrange for day or evening counseling interviews by calling the Office of Student Affairs, 591-6400.

Just because a man has the world by the tail is no guarantee he won't go into a tail spin.

# SHAKE IT!

Yes, we want you to grab our family tested pools, which have Lock-Frame Construction, and shake them! We believe we have the sturdiest above ground pools available. Tell us if we're wrong.
