America's Astro's Speak for Scouting

The Clinton Valley Council, Boy Scouts of America, this month launched a fund-raising campaign, the Lost Lake Reservation Development Fund, in the interests of assuring present and future success of adequate camping facilities.

Some significant statements about the importance of scouting in the development of America's youth are contained in the following reports from men who are making headlines in the U.S. Space Program.

JAMES A. LOVELL, ASTRONAUT

"I joined the astronaut program in 1962 and my specialty at that time was recovery, but for the last year and a half I've been assigned to teams. The first one being the backup for GT-4 and I had to keep Ed White healthy all the time. Presently, I'm on the Gemini 7 team. I was an Eagle Scout in Milwaukee, Wisconsin and I enjoyed my Scouting very much; went to Indian Mound Reservation and became a member of the Order of the Arrow at that time. I have two girls and a boy—the boy is a Cub Scout, my little girl is a Brownie and I have a Cub Scout—so our family is a Scouting family, and I really believe in the old motto 'be prepared'."

DR. ROBERT L. GILBERT, DIRECTOR, MANNED SPACECRAFT CENTER, NASA

"NASA is proud of its long and close association with the Boy Scouts, and I would like to say that we're all extremely interested from Mr. Webb, our administrator, on down. We all recognize that the Boy Scouts of America are a dedicated organization that teaches, trains and motivates our boys to become strong, bright and able, and a force of good in the world today."

NEIL A. ARMSTRONG, ASTRONAUT

"I'm currently assigned to command pilot for Gemini 8. I was an Eagle Scout, Order of the Arrow, assistant Scoutmaster, and past Scoutmaster. My father was a Scoutmaster, my brother is an Eagle Scout and my son is a Cub. I think perhaps here at the Center we try to do best the first few words of the Promise, 'On my honor'."

Let us remember what Memorial Day stands for—it is to pay our respects to our War Veterans. Today there are fathers, sons, brothers, relations, and sweethearts who are giving their time, and at times their lives for us. To keep us safe and free, they are fighting for this United States of America. The least we as Americans can do is show our respect for our flag.

Let us do this by saluting each and every American flag that passes by in the Memorial Day Parade. As our flag comes toward you, and nears where you are standing—come to attention—stand straight and tall—this is your own country's flag—be proud of it. Gentlemen, both young and old alike take off your hat, and proudly salute your flag. Ladies, we too can salute. Don't feel ashamed if others stand, by your example they will follow you.

When at the cemetery do remember where you are, and why you are there. Don't run around or act as if you'll never see your neighbor again. Have another good chat. Do please remember where we are and why. We are here honoring the dead. This is hallowed ground, so do respect it.

For those of you marching in parade who are Girl Scouts a few do's and don'ts to think about, and to do. For you taking part in the color guard—to be in complete uniform, the correct one for your age group. Wear hat, gloves, proper socks, and your red sash. There should be a flag bearer and one guard for each flag.

Do hold your American flag high, and hold straight, never let it drag or touch the ground. Do let it fly free. Do feel honored for you are carrying your country's flag.

Don't let the flag touch the ground; hold it high and it won't.

Do rest flag staff on the ground while waiting to march. When at the cemetery rest so. Those walking beside the flag, don't hold on to it, the flag should fly free.

Stand an arm's length away on either side and the same back and front. Then none should have the flag blowing in their faces. This makes for a nice distance apart.

Don't block your ears when the guns are fired in the final salute. It will be a loud noise, but you can stand that. Don't grudge the gun salute.

Be proud of this our country. Respect its flag and the rights we have. We are free—this is more than a lot of other countries are.

DO STAND PROUD AS OUR FLAG COMES BY.
