Horse Department

By N. P. HULL, Vice President of the Michigan State Fair and Superintendent of the Horse Department.

N. P. HULL

ESTIMATES place the value of Michigan's farm horses alone at \$80,000,000. In this the horses in the cities are not taken into consideration. Then they say that the death knell of the horse was sounded with the coupling of the steel wheels, the autos. What the State Fair is endeavoring to do is to encourage the breeding of those types which give the greatest service on the farm. We are making every effort to secure the most attractive exhibit of heavy horses the Fair has ever known this year.

There has been a steady increase in this class the last ten years, and there is every indication that the 1913 record will show a healthy growth over any previous year.

There will be unusual features in this year's horse department to attract the attention of western visitors. Special prizes under distinct classifications are offered for some of the following: well known and approved types: Percheron, Cheshire, Shire, Belgian, French and Canadian coach.

Special prizes are also offered for stallions, blood, owned, in service and registered in Michigan. In addition to the many handsome awards, free entry is made to one of the competitors by the Fair, there will be several valuable medals and cups given by the horse breeding associations.

American should be proud of his superior heavy horses, and nowhere are there finer stallions than in Michigan. The recent sweeping victory of the American heavy horse over the more than 100 superior stallions possessed by the Yankees is a tribute to their superiority of blood.

The American heavy horse, however, is not the only one to be proud of. The American heavy horse is not the only one to be proud of. The American heavy horse is not the only one to be proud of.
