Duty Dogs  
Sought by  
State Police

The Michigan State Police are seeking donations of German shepherd dogs for use in the department's tracking program. Col. Frederick E. Donors are requested to contact any State Police post.

Male German shepherds of pure strain and, if possible, registered are being sought and they are considered the best all-around type for police purposes.

Dogs selected must be between one and two years old, large, big boned, and at least 24 inches tall at the shoulders, measured from the ground. Ears must stand and there must be no noticeable scars or odd or unusual markings.

Donated dogs are accepted on a "first come, first served" basis. Teams for assignment locations not yet determined.

A 14-week school for trainees will be held in the department's training facility from April 1 to May 1. Most of the training will be done in the Houghton Lake area. The school will be under the supervision of Cpl. Richard H. Abbott of the East Lansing post, who has headed this program for many years.

The department first began the tracking program in 1960 and because of satisfactory results has expanded it several times since.

Presently the State Police have 10 teams on active duty at East Lansing, Ingham, Paw, Mt. Pleasant, Grand Haven, Houghton Lake and Marquette. One tracking dog was accidentally killed by an auto last year and several others were retired.

Red Cross

Costs Reach  
New High

Mounting demand for services to U.S. military forces in South Vietnam and meeting needs of victims of Hurricane Betsy combined to make 1965-66 the busiest and costliest year for the American Red Cross since World War II.

The organization's Annual Report noted a total of \$120,819,348 in expenditures, the highest sum since the immediate post-war period of 1945-46, when the organization spent \$129,344,967.

For the third year in a row, collections rose in the organization's appeal for funds and members through independent campaigns by chapters and participation by many chapters in United Fund appeals—\$22,082,143 as against \$28,359,261 in 1963-64.

Typing Available  
To 9th Graders

Junior high school students will now be offered a one-semester course in typing due to a Monday night decision by the Board of Education to approve this addition to the curriculum. This will relieve some of the pressure on the tenth grade typing program.

Board members approved a plan for the walkway which will take the place of the portion of Power Rd. which has been vacated to make way for a building project. The walkway will provide the needed access to Twelve Mile Rd. for pedestrian traffic.

Necessary authorization was granted by the Board to conduct a boundary survey in

Section 13 as it will be mandated to acquire a corner of property from the Sisters of Mercy in order to construct a roadway to the school site located in that section. The survey is needed so that the attorney can proceed with the legal description of the segment to be acquired.

Permission was granted for the North Farmington senior class of 1966 to hold the prom at Lovett Hall in Greenfield Village, and permission was likewise given to the school administration to submit invoices for payment twice a month rather than monthly as considerable time can be saved thereby.

Superintendent Harrison reported that the application to begin the sale of the first bond series needed to finance the projected high school building program has been held up by the Municipal Finance Commission. The delay is due to a policy decision which the Commission plans to make on the terms for granting future loans.

Due to this delay, the sale of series one and two would be brought, unduly close together, so it is hoped that both series may be approved simultaneously and offered as a single package. The total amount would then be \$6,100,000.
