One of those days when your phone means so much

You're weathered in with a houseful of kids. So you call for the weather report and learn it's a stay-at-home day. But...you had places to go to and things to do. So, you cancel your appointment at the hairdresser's. Call the drugstore and order more of the baby's special formula... just in case. And then you call your friend to tell her the shopping trip is off. What else in your home does so much for you, and costs so little?
