

MISS JUDITH A. BORST, daughter of Mr. and Mrs. Albert C. Borst, 2640 Lyman Road, has been awarded the silver wings of an American Airlines stewardess after completing training in stewardess college, Fort Worth, Tex. She has been assigned to flight duty out of New York City. Miss Borst graduated from Farmington High in 1964.

The sale of natural gas by Consumers Power Company in 1966 to all types of customers—residential, commercial and industrial—showed a 9 percent increase over the previous year.

3 New Courses Offered By LIT For Fall Term

Now you can study for bachelor of science degrees in chemistry, physics or mathematics during the day or entirely in the evening at Lawrence Institute of Technology, Northwestern and 10 Mile, in Southfield.

Dr. Wayne H. Buell, L.I.T. president, announces that the new programs will begin in September in the new School of Arts and Science. These are in addition to the B.S. programs in architecture, engineering and industrial management that have been offered in the day and evening colleges for many years.

Laboratories and classrooms for the new programs will be housed in the \$2.4 million Science Building now being completed on L.I.T.'s 70 acre campus.

In ROTC Meet

Harry J. Adams, of 24130 Twin Valley Ct., and Richard M. Harris, of 27850 Peppermill Rd., took part March 31-April 1 in the ROTC Titan Drill Meet in Detroit's Cobo Hall.

'OKLAHOMA' CAST includes Lynda Applegate (as Aunt Ellen, with basket), Sue Strahl (as Gerrie, kneeling), Carolyn Sidlosky (as Ado Annie, admiring lover), Mike Van Driesche (as Will Parker, with Annie), Dave Van Driesche (as Ali Hakim, the traveling Persian peddler, in plaid suit), and Stan Pylor (using gun to persuade Ali to raise his bid on Annie's picnic basket).

Science Topic

"Bless the Lord, O my soul, and forget not all his benefits: who forgiveth all thine iniquities; who healeth all thine diseases; who redeemeth thy life from destruction; who crowneth thee with lovingkindness and tender mercies." This verse from Psalms is the Golden Text of this week's Christian Science Lesson-Sermon entitled "Are Sin, Disease, and Death Real?"

'Oklahoma' Lives Again

Rodgers and Hammerstein's popular musical "Oklahoma!" will come alive in Farmington Friday and Saturday, April 28 and 29. Our Lady of Sorrows High School's drama and music departments will present the American classic in the auditorium of Our Lady of Mercy High School, 23300 Eleven Mile Road. Curtain time each evening is 8 p.m. Tickets are available from OLS students or at the school, located at 23529 Powers Road. Donations are \$1 for regular seating and \$1.50 for reserved seats.

The story takes place in the Territory of Oklahoma in the early 1900s, before it became a state. Handsome Curly McLain and the sinister, repulsive Jud Fry court pretty Laurey Williams in the main plot. In the rollicking sub-plot, Curley's pal Will Parker bids for the hand of flirtatious Ado Annie against Ali Hakim, a traveling Persian peddler.

Oakland U. Will Open 2nd Residential College

ROCHESTER—Oakland University will open the doors next fall to its second residential college, called New College, for an initial enrollment of about 100 freshmen and 20 sophomores.

Lake Charter College, OU's 18-month-old residential institution, New College is designed to retain within the rapidly expanding University the values of a small and close-knit student body. OU Chancellor D. B. Varner describes the concept as fostering "learning fraternities."

Each residential college will grow to no larger than 500 students. Charter College now has an enrollment of about 200.

New College will be open to all freshmen but will seek in particular those students who are interested in a strong undergraduate emphasis on liberal arts. Classes will accent interdisciplinary study. A freshman course in intellectual and cultural history, for example, will bring together such fields as history, literature, art, music and Asian studies.

New College resident students will live together in dormitories, with provisions, wherever possible, for commuters to join in the extracurricular life of the college. The students will be encouraged to

develop a social and cultural community to complement their academic programs, possibly including a "college forum" featuring debates, visiting speakers and dramatic performances.

Freshmen will take a two-credit course in the performing arts—drama, music and dance—in addition to a six-credit course in intellectual and cultural history. The sophomore program will be devoted to study of contemporary society, both in the classroom and first-hand through an off-campus field term project.

An unusual feature of the education of New College students will be a semester spent off campus on the term project, which may involve sabbatical work, volunteer work or an individualized program of study.

Juniors will take two semesters of science. Melvin Chernow, associate professor of history and one of the original faculty members of Charter College, will be master of New College.

Fields of other initial faculty members point up the variety of disciplines New College students will encounter. They are Jon Appleton, instructor of music; Thomas A. Aston, designer for Meadow Brook Theatre; John Blair, professor of English; David Booth, associate professor of sociology; Richard Burke, associate professor of philosophy; John Cameron, assistant professor of art history; Becky Malm, dance; Norman Susskind, associate professor of French; Richard Tucker, assistant professor of history, and Marlyn Williamson, assistant professor of English.

Understanding your HEALTH

By Albert E. Heustis, M.D., Director Michigan Department of Public Health

Your state health department provides what some might call Michigan's Family Bible or at least the vital event part of the family bible. That is, one of our jobs is to keep all vital records in our files. Through these records, we follow the vital events in the life of each Michigan citizen from the cradle to the grave—recording births and deaths, and in between times adoptions, marriages, and, happily, divorces.

Official registration and certification of important life events provides a source for legal records—for example, proof of age (or place of birth) by a birth certificate, is often required to enter school, to secure a driver's license, or a marriage license. The Vital Records Section here at the state health department provides a source for all of these legal records.

If you require a record, the County Clerk of the area, the event took place in can generally provide copies—but any time the record can't be found in the local area or whenever you have moved, if you were born in Michigan the state health department can probably help you. Each year we make thousands of searches into our files to find records and make copies for individual Michigan citizens.

But perhaps equally important is the fact that these legal records provide data that is fed into computers and is processed to produce state-wide health and population

figures. A death rate is determined from this data, along with concrete facts on the various causes of death. Inadoption, birth rates are established. Birth and death statistics are combined with other information to develop population projections. And the data on the various causes of death are used to determine patterns of disease, in order to guide public health programs in the state. The health department's comprehensive "Annual Statistical Report" eventually grows out of this fully analyzed information.

Antique Show Set For April 11-13

The 15th annual Antique Show and Sale by All Saints Episcopal Church, Pontiac, will be held April 11, 12 and 13, in Stevens Hall, 171 West Pike Street at Williams, from 11 a.m. to 10 p.m. daily. Admission is \$1. A door prize will be given each day.

Dealers from Michigan and Ohio will offer antiques of every description for sale. Everything from primitives to art glass and from guns to fine jewelry will be available. Heirloom quilts and flowers will add a festive note to the decorations in the dining room and on the balcony tea room overlooking the show. Many delicious and different salads and desserts will be prepared and served by the women of the church.

Young Republicans To Hear L.S. Miel

Lucas S. Miel will address the Young Republicans of Oakland County Tuesday, April 11, 8 p.m. at Kingsley Inn, Woodward at Long Lake Rd. His subject will be "Changing Views Toward Transit." All young adults between the ages of 17 and 36 are invited to hear him. They will also have an opportunity to learn more about this political group.

Private Dmytro At Fort Knox!

Army Pvt. David A. Dmytro has been assigned at Fort Anox, Ky. to Company E, 17th Battalion, of the 5th Basic Combat Training Brigade, for his initial eight weeks of military training.

Beauty and Simplicity...

Often lend grace to each other. In the handling of floral tributes this is especially true.

The Heenev-Sundquist Funeral Home has high regard for the beauty that careful arrangement of flowers can add to the service. We know well the feeling that is conveyed to the family by our extra care.

Announcing Buick's new GS-340.

(The misnamed GS-400)

If you read the papers, you know how great our new famous GS-340 is. (It's the one in the background.) And you also know you don't get a GS-400 for peanuts. It's a great car. But it's just a little less for some people. So we set to work and designed the GS-340. It has a smaller engine than the whole machine weighs less. Its interior is clean and simple and tasteful. And it has its own ornamental, paint job (see the rally stripe and hood ornament), and, of course, all the GM safety features. So now you have a car that costs less than the GS-400, but one with its own special brand of excitement. How can you best that kind of a combination?

Why do people with hard-to-heat rooms turn to electric heat? It's pure and simple

Electric heat is the clean, modern heat—no flame, no fumes. It's a snap to install—costs less, too—because it's more compact and more efficient. And only electric heat is 100% efficient: the heat is created right where it's used. It's also economical. You can buy an attractive, low-operating-cost unit for as little as \$35-\$40 (plus thermostat and installation). And we're talking about a unit that can turn a 12' x 20' polar region into a tropical delight. Just dial the warmth you want, and you get it. Give us a call. We'll send an Edison Heating Specialist to discuss equipment, installation, and operating cost with you. No obligation, of course.
