

Fraternity Honors McDonald

The University of Detroit's Epsilon Zeta chapter of Alpha Kappa Psi, the oldest business fraternity in the United States, on Saturday, presented their Annual Civic Award to Jack McDonald.

The award is given each year for outstanding service to country and community to the person who most displays inspirational leadership. McDonald was presented the award in recognition of his ideas and efforts to enrich the lives of others.

McDonald received the award at the Epsilon Zeta meeting held at the Colonial House in Taylor.

Last year the award was given to Detroit Mayor Col. Roy F. Culbert in recognition of his long service as members of Michigan Selective Service Board No. 102 in Plymouth.

CERTIFICATES OF APPRECIATION are presented to Judge John L. Mokorsky (center) and Leonard Broquet (right) by Judge Mokorsky who has served 25 years and Broquet, a former supervisor of Redford Col. Roy F. Culbert in recognition of their long service as members of Michigan Selective Service Board No. 102 in Plymouth.

Changes Make More Eligible

(Any questions concerning social security will be answered by Mr. Test through this column. Send your questions to this newspaper.)

According to Sam F. Test, district manager of the Northwest social security office, disability payments under the social security law are no longer limited to persons with permanent disabilities.

Test said he feared many people were not yet aware of a change in the social security law under which you may be eligible for benefits if you have a disability that is expected to last 12 months. Previously you could get benefits only if you had a disability that was expected to continue for a long and indefinite time, or result in death.

Test pointed out that formerly many disability claims were disallowed because the impairment, although severe, was not expected to be of long and continued duration. Any mental or physical impairment that is totally disabling and is expected to continue for as long as 12 months meets the requirements of the definition of disability under the new law.

According to Test, the work record requirement has not been changed. A worker must still have worked under social security at least five years out of the 10-year period just before the date the worker became disabled in order to qualify for disability payments. It is not necessary that the five years be continuous.

Twenty calendar quarters of work performed at any time during the 10-year period, even though they are scattered or intermittent, will meet this requirement. Any person who has an impairment that meets these requirements should file a claim with his social security office.

Test said the social security office has a free booklet that explains the new law fully. Just ask for booklet GASI-29. You may write or call the social security office located at 18500 Grand River, telephone 272-0080.

SAM S. BEGIAN, a resident of Farmington, has been assigned new and more responsible duties by the Detroit Edison electrical systems department. He has been placed in the relay division in a new capacity. A native of Highland Park he was graduated from the Highland Park High School and later employed by the police department in the radio engineering department. He was graduated from the University of Michigan in 1952. He and his wife, Ethel, have six children and reside at 24154 Cortland in Farmington.

Urge Parents to Instruct Children in Bus Safety

With the opening of schools, the Greater Detroit Safety Council, a chapter of the National Safety Council, suggests parents teach their children the following rules about the use of school buses.

Leave home in plenty of time so that you don't have to rush to catch the bus, but don't leave so early that you'll have to wait more than five minutes.

Wait well off the roadway. Don't distract motorists.

Stay well back until the bus comes to a full stop. Use the handrail on boarding. Take a seat and remain seated until the bus comes to a full stop at your destination.

If there are no available seats, stand holding onto two seats, one with each hand. Comply promptly with instructions from the driver and from your school bus patrol, if there is one aboard.

Keep books and packages in your lap or under your seat, never in the aisle.

No loud talking or active play. Quiet conversation is all right except at railroad crossings, where the driver must listen for trains.

Don't do your homework or eat your breakfast on the bus.

Never stick your head or a hand or elbow out of a window.

Leave the bus quickly and

quietly without crowding or shoving, and don't linger at the loading zone.

Cold Packs Valuable in Giving First Aid

The cold pack, or ice bag, often is a useful tool in first aid. When and how can you use it?

In many cases application of cold helps to minimize swelling, inhibit bleeding, reduce excessively high body temperature and relieve pain, says Today's Health.

Cold applications, especially ice, have an anesthetic effect. They may be helpful in cases of nosebleeds, bleeding from minor cuts such as razor blade nicks, sprains, bites and stings of insects, minor burns and heat prostration.

Cold applications tend to inhibit bleeding by constricting the small blood vessels in nosebleeds and persistently oozing minor cuts.

Applications of ice water alleviate discomfort from insect stings and bites, and may delay the chemical action and circulation of poison injected by the pest.

Immediate application of cold compresses to sprains lessens swelling. Such applications should be continued for at least half an hour before the sprained limb is bandaged or otherwise supported.

In case of high body temperature associated with heat prostration, the entire body should be sponged freely with cool water until temperature returns to tolerable level.

Immediate immersion into ice water of a body part that has sustained a minor burn controls pain and possibly reduces tissue damage.

General Motors Sales Increase

General Motors dealers in the United States sold 138,904 new passenger cars and commercial vehicles in the last 10 days of September. This compares with 99,642 in the same period last year.

Included in the 1968 figure were 118,753 passenger cars and 20,151 commercial vehicles, compared with 79,249 passenger cars and 20,393 commercial vehicles in the same period in 1967.

The third period of September figures included only two days of sales of 1967 model Chevrolet, Pontiac, Oldsmobile and Buick cars, which were introduced Sept. 29.

Cadillac 1967 models were in showrooms on Oct. 6.
